No 3582T—R—The 29th September 1905—In exercise of the power conferred by section 14 of the Glanders and Farcy Act 1899 (XIII of 1899) the Lieutenant Governor is pleased to make the following rules for the Port of Calcutta, the River Hooghly and the channels leading to the said port as defined in Government Notification No 54 Marine, dated the 2nd March 1897, published at page 326, Part I of the *Calcutta Gazette* of the 3rd idem

1 In these rules,—

(1) 'the Act" means the Glanders and Farcy Act, 1899 (XIII of 1899),

(2) 'the head office means the head office at the Bengal Veterinary College Belgachia

(3) "the hospital' means the Contagious Diseases (Animals) Hospital attached to the Bengal Veterinary College Belgachia

(4) "Inspector means an Inspector appointed under section 4 of the Act,

(5) 'the Port' means the Port of Calcutta and includes the River Hooghly and the channels leading to the said Port

(6) "Schedule means a schedule annexed to those rules

(7) the Superintendent means the Superintendent, or other officer in charge, of the Civil Veterinary Department Bengal and

(8) "Veterinary Practitioner means a Veterinary Practitioner appointed under the Act

N B—By virtue of section 20 of General Clauses Act 1897 (X of 1897) expressions used in these rules have the same meaning as in the Glanders and Farcy Act 1899 consequently the expression diseased has the meaning stated in section 2 (1) of the latter Act and the word horses includes asses and mules—see section 2 (2) of that Act

2 (1) The operations under the Act in the Port shall be under the direction of the Superintendent

Control by Superintendent

(2) All Inspectors and Veterinary Practitioners and all members of the Veterinary Preventive Force appointed to assist Inspectors and Veterinary Practitioners in carrying out the purposes and objects of the Act shall be under the control of the Superintendent

Duty of master of vessel arriving off Saugor Island

3 Whenever a vessel with one or more horses on board arrives off Saugor Island,—

(1) the Master shall—

(a) report to the Pilot in charge of the vessel the fact of a horse or horses being on board and

(b) hoist at the main or mizen mast for the information of the Inspector on duty in the port (if any horse is from Queensland) Flag H, or (if none of the horses are from Queensland) Flag N and

(c) keep the said flag flying until he is informed by the Inspector at Diamond Harbour that none of the horses are diseased and

(2) the signaller at Saugor shall telegraph at once to the Inspector at Diamond Harbour and to the Superintendent the arrival of the vessel

4 The said Pilot shall deliver to the said Master a printed copy of sections 2, 10 and 11 of the Act and the Master shall give such copy to the owner or person in charge of the said horse or horses

Delivery of copy of sections of Act

5 If the said Pilot or any officer or Police or of the Customs Department who goes on board the said vessel has reason to believe that any horse on board is diseased, he shall at once give information thereof to—

Report forthwith by Pilot or Police or Customs Officer

(1) the Master of the vessel and

(2) the Inspector on duty in the port

6 If the Master of the said vessel has reason to believe that any horse on board is diseased or if information that any such horse is diseased is given to him under rule 5 he shall prevent any horse from being disembarked until an Inspector has inspected all the horses on board.

Stoppage of disembarkation of horses

7 If the services of the Inspector on duty in the port should not be immediately available when required for the purposes of any of the foregoing rules the Master shall give information in writing to the Inspector in charge of the 3rd division Port Police at the Kidderpore police station

Inspector on duty not available

8 Whenever any information is given to the officer of Police specified in rule 7 he shall at once forward the same in writing to the nearest Inspector

Duty of officer in charge of Port Police on receipt of information under rule 7

9 (1) If any officer of the Government has reason to believe that any horse which is being landed or has been landed at any wharf dock bandar or other place is diseased, the person in charge of such horse shall, upon the requisition of such officer, keep the said horse, and all other horses (if any) landed with it, separate, at or near the spot where it has been landed, until an Inspector has inspected all the horses

Procedure where any officer of the Government has reason to believe disease on landing

(2) The officer making such requisition shall forthwith give information to the officer of Police specified in rule 7, who shall cause the same to be taken down in writing and shall at once forward the same in writing to the nearest Inspector

Entry of vessel by Inspector

10 (1) Whenever an Inspector has reason to believe that a diseased horse is to be found on board any vessel in or about to enter the Port he shall enter such vessel and search for and inspect such horse and all other horses (if any) on board such vessel

(2) Every entry upon and search of a vessel and every inspection of horses made by an Inspector under this rule or under section 5 of the Act, must be made in the presence of the Master or some other officer of the vessel, and of the owner or person in charge of the horses if he desires to attend

(3) Before making any such entry the Inspector shall, if so required, produce his certificate of appointment

(4) Every such certificate shall be in the form contained in Schedule I

(5) When making any such entry, search and inspection the Inspector may be accompanied by any other Inspector or any Veterinary Practitioner or any member of the Veterinary Preventive Force whom he may consider it necessary to take with him

(6) The Master and every officer of such vessel, and the owner or person in charge of the horses on board shall give free access to the Inspector and the persons (if any) accompanying him, and shall in every way facilitate his search and inspection

Procedure when Inspector believes horse to be diseased

11 (1) Whenever an Inspector has reason to believe that any horse on board a vessel in the port is diseased, he shall seize such horse and deliver it to a member of the Veterinary Preventive Force to be taken to a Veterinary Practitioner

(2) If such Veterinary Practitioner certifies under section 8 of the Act that the horse is suffering from any disease other than glanders or farcy, he shall, as soon as possible, order it either—

(a) to be destroyed or

(b) to be sent with all due care for the prevention of contagion to other horses and to human beings to the hospital, where it shall be dealt with under the Act and these rules or

(c) to be otherwise treated or dealt with,

as he may deem necessary

(3) Any horse so sent to the hospital may be detained therein for such time as the officer in charge may consider necessary and may be submitted to any recognized test

Presentation of documents after seizure

12 (1) When an Inspector seizes a horse under section 6 of the Act, he shall present to the Master of the vessel or to the owner or person in charge of the horse a printed copy of these rules

(2) If the Inspector is a Veterinary Practitioner and if the horse is found on examination to be diseased he shall also present to such owner or person a certificate in the form set forth in Schedule II

(3) If the Inspector is not a Veterinary Practitioner and if the horse is found on examination by a Veterinary Practitioner to be diseased the Inspector shall as soon as practicable, procure from such practitioner a certificate in the said form and shall serve a copy of it on the said Master owner or person

(4) If the said Master owner or person is absent at the time of the seizure the Inspector shall nail on to a prominent place on the vessel the documents hereinbefore mentioned

Procedure when after examination a horse is not certified to be diseased

13 (1) If, after completing the examination of a horse the Veterinary Practitioner does not certify that the horse is diseased, the expenses incurred shall be debited to the Government

(2) If the person entitled to the possession of the horse is not present to receive it under section 8 (2) of the Act the Inspector shall forthwith serve upon him a notice in the form contained in Schedule III requesting him to remove the horse within a period of seven days from the date of the notice

(3) The said notice may be served either personally or by leaving it at the last known residence or place of business of the person believed to be entitled to the possession of the horse and in the latter case a copy of the notice shall be posted at the police station within the local limits of which the horse was seized

(4) If the horse is not removed within the aforesaid period of seven days, it may be—

(a) sold to defray expenses, in which case any balance that may remain after meeting all charges may be kept at the owner's disposal for two months after which time it shall be the property of the Government, or

(b) sent to the Pinjrapole or

(c) destroyed

Destruction of horses

14 If a Veterinary Practitioner certifies under section 8 of the Act that a horse is suffering from glanders or farcy, or orders under rule 11 that a horse certified to be suffering from any other disease be destroyed, or if the destruction of a horse is ordered under rule 13, it shall be destroyed

humanely in the presence of an Inspector, and the carcass shall be disposed of in the presence of a member of the Veterinary Preventive Force

15 (*1*) Licenses under section 11 of the Act for the removal of horses which have been with a diseased horse shall be granted by the Inspector in the form contained in Schedule IV

License for removal of horses

(*2*) The place to which horses shall be removed under any such license for isolation shall ordinarily be the hospital

16 When a horse or carcass which is diseased or believed to be diseased, is about to be removed to another place for examination, slaughter, cremation, burial or any other lawful purpose, the owner or person in charge of the horse or carcass shall attach a suitable covering over the nostrils and to any part of the body or carcass from which contagious or infectious matter may escape, so as to minimize danger from contact during removal

Precautions during transit of horse or carcass

17 (*1*) If a diseased horse dies, the owner or the person in charge of it shall, as soon as possible, and with all due care for the prevention of contagion to other horses and to human beings cause the carcass to be taken to a suitable place, to be there burnt or buried or otherwise disposed of in the safest and most efficacious manner practicable

Disposal of carcasses of diseased horses

(*2*) The means of disposal to be adopted shall be decided in each case by an Inspector, and shall be recorded in writing, and the work shall be carried out under the supervision of a member of the Veterinary Preventive Force

18 (*1*) Whenever an Inspector issues a notice under section 9 of the Act to the Master or the officer in charge of a vessel to have the same disinfected such disinfection shall be regulated as follows namely —

Method of disinfection of vessel on notification under section 9 of the Act

(*a*) all refuse derived from cleansing, and all dung, litter, straw grass or hay shall be taken to a suitable place and burnt and any material left after burning shall be burried according to orders issued by an Inspector,

(*b*) every piece of stable gear connected in any way with a diseased horse including feeding troughs, pails and battens, shall be destroyed by fire except iron work which shall be made red hot

(*c*) every part of the vessel which has been within reach of a diseased or suspected horse shall be thoroughly scraped

(*d*) in the case of a steam vessel —

(*i*) the steam hose superheated shall be turned on and carefully applied to every part of the deck hold or other place which has been occupied by any horse

(*ii*) the deck hold or other place shall then be washed with soft soap and hot water mixed with crude carbolic acid or phenyle in the proportion of one part of acid to twenty parts of water and

(*iii*) the said place shall then be freely ventilated

(*e*) in the case of a sailing ship, or of a steam ship unprovided with a steam hose the procedure prescribed in clause (*d*) shall be adopted except that scrubbing with hot water may be substituted for the use of a steam hose

(*2*) Notwithstanding anything in clause (*1*) the Inspector may, for reasons recorded in writing prescribe any method of disinfection which the special circumstances of a particular case may seem to him to require

19 (*1*) Every vessel which has been disinfected under rule 18 shall, after disinfection, be examined by an Inspector

Examination of vessel by Inspector after disinfection

(*2*) The Master or officer in charge of any such vessel shall give such Inspector all reasonable facilities for such examination

(*3*) If the Inspector is not satisfied that the work of disinfecting any vessel has been thoroughly done, he may pass such orders as he may consider necessary to secure the proper disinfection of the vessel, and the Master or officer in charge of the vessel shall be bound forthwith to carry out such orders

20 The expense of detaining isolating and testing, under the Act or these rules any horse which a Veterinary Practitioner has certified to be diseased shall be recovered from the owner or the person who was in charge of such horse, according to the following scale, namely —

Recovery of expenses in dealing with diseased horse

(*a*) a fee of one rupee for admission to the hospital

(*b*) four annas a day for food and

(*c*) in the event of slaughter or death, a fee of two rupees for disposing of the carcass

Provided that the whole or any part of such expense may be remitted and debited to the Government by the Superintendent, if it is proved to his satisfaction that the debtor has executed promptly and thoroughly all the duties laid upon him by or under the Act or these rules

Provided also that no charge shall be made for admission or for food if the owner or the person who was in charge of the horse himself provides food and an attendant

21 Every account rendered under rule 20 to an owner or to a person who was in charge of a horse shall be prepared in the form contained in Schedule V, so far as it is applicable

Form of account

22 All sums due from any person under rule 20 shall be recoverable, on application to a Magistrate, as if they were fines

Recovery of sums due

23 In the event of obstruction, the Police shall be bound, on the written application of an Inspector, a Veterinary Practitioner, or a member of the Veterinary Preventive Force to render such officers such assistance as may be necessary to enable them duly to perform their duties under the Act and these rules

Assistance by Police

24 Every Inspector, and every member of the Veterinary Preventive Force, who is not a gazetted or commissioned officer, shall when on duty, wear a distinctive uniform prescribed for his department

Uniform

Provided that the Superintendent may by written order, exempt any officer from compliance with this rule

25 Whoever commits a breach of any of these rules shall be punishable with imprisonment for a term which may extend to one month or with fine which may extend to fifty rupees or with both

DECLARATION

No 3699T.R—The 30th September 1905—Whereas certain land was acquired by the Bengal Government, under the provisions of Act I of 1894 and Act XVIII of 1885, for a public purpose, viz, for the Khoira Branch of the East Indian Railway, and whereas coal mines are situate under the said land, and whereas the East Indian Coal Company, Limited have given notice to the Government of Bengal, in accordance with the provisions of Act XVIII of 1885 that the said Company intend to reduce the support and extract such coal lying under the Damuda Branch of the East Indian Railway, the Khoira branch and assisted sidings as may be decided upon by the Government of Bengal, and whereas the mines have been inspected by the officer appointed by the Bengal Government for the purpose under section 5 (1) of Act XVIII of 1885 and whereas it appears to the Bengal Government that the working out of the coal of the mines underlying the said land is likely to cause damage to the surface of the said land and to the works constructed thereon and whereas the said East Indian Coal Company, Limited, have agreed not to work and get minerals underlying the land acquired for their siding or underlying the land acquired for the branch or other lines with which the siding is connected or underlying the land of the branch or branches connecting the said siding with the main line, in such a manner as to injure or to endanger the safety of the undertaking or any part thereof nor to claim any compensation for any restricted working

Now therefore the Lieutenant Governor of Bengal is pleased to declare under section 5, sub-section (2) clause (*b*) of the abovementioned Act XVIII of 1885, that the working shall be carried on by the said East Indian Coal Company Limited, in the manner and subject to the restrictions below specified, viz —

That in No 15 seam the coal outside the area bounded by the red lines A B and C D, shown on the plan, may be worked without restriction but within that area no further excavation shall be made in any of the galleries which already have been driven, the actual heights and widths of which have been carefully recorded on the plan marked L A M A No 39, signed by the Chief Inspector of Mines

IRRIGATION DEPARTMENT

The 4th September 1905

No 22 —Notification —It is hereby notified for general information that the Hon ble the Lieutenant Governor of Bengal proposes under the provisions of Sections XI and XII of Act V (B C) of 1864 to pass the following Rules in supersession of those now in force on the Nadia Rivers with effect from the 15th November 1905 —

W A INGLIS,
Secy to the Govt of Bengal

PROPOSED RULES

The rules shall apply to the undermentioned navigable channels which are included under the designation 'Nadia Rivers,' viz —

(1) the river Bhagirathi throughout its whole course from the Ganges to Nadia, or to its junction with the Hooghly
(2) the river Hooghly from Nadia to its junction with the river Mathabhanga
(3) the river Jalangi from the Ganges to Nadia,
(4) the river Bhairab from the Ganges to Nadia
(5) the river Mathabhanga from the Ganges to its junction with the Hooghly
(6) such portions of the river Ganges as may be within five miles of the entrance for the time being of the Bhagirathi the Bhairab the Jalangi and the Mathabhanga rivers respectively

1 Every vessel entering or making use of the Nadia Rivers shall be liable to measurement for the purpose of ascertaining the tolls payable In case of any reasonable doubt the persons appointed by the Lieutenant Governor to collect tolls and officers to whom such persons are subordinate shall have authority to again measure a vessel notwithstanding that it was measured before

2 Vessels for the purposes of the determination of tonnage shall be divided into two classes as follows —

Class I —To include all vessels of the usual native types of build

Class II —To include all steamers flats barges and other square built boats

The tonnage of every vessel whether laden or empty shall for the purposes of Act V of 1864 and of these rules be determined by the following measurements —

Class I —

(*a*) The product of one quarter the length of the vessel from stem to stern, measured outside and along the water line multiplied by the greatest interior breadth of the vessel, multiplied by the interior depth from the water line to the bottom of the vessel is to be taken as the number of maunds on which toll shall be levied

(*b*) The measurement of the length is to be made in feet rejecting inches The measurements of the breadth and depth are to be made in feet and quarters of a foot rejecting any remainder of less than a quarter of a foot

(*c*) The maundage on which the amount of toll is calculated shall be reckoned to the nearest integral multiple of 25 maunds rejecting an remainder of less than 25 maunds In the case of vessel exceeding 1 000 maunds by measurement, the maundage shall be reckoned to the nearest integral multiple of 100 maunds rejecting any remainder of less than 100 maunds

Class II —

(*d*) For vessels of Class II the number of maunds obtained by the system of measurement prescribed for Class I shall be increased by one half For vessels of this class exceeding 5 000 maunds by measurement, the maundage shall be reckoned to the nearest integral multiple of 500 maunds rejecting any remainder of less than 500 maund

(*e*) In the case of steamers that have been surveyed under Act VI of 1884 the gross tonnage entered in the certificate shall be accepted as the tonnage of the steamer in lieu of measurement

In all cases, the gross tonnage of steamers whether as entered in the certificate, or as determined by measurement, shall be reduced by one-third as an allowance for engine space

(*f*) For vessels of Class II which are furnished with reliable way bills or manifests the gross maundage of cargo shown by the manifest may at the option of the employer of the vessel, be taken as the maundage on which toll shall be charged provided that the amount of tollage shall in no case be less than the amount which would be payable in respect of the tonnage of the vessel when empty In the case of steamers that have been surveyed under Act VI of 1884 tolls shall be charged on the cargo, as thus determined, in addition to the tolls chargeable on the net tonnage of the steamer itself provided that firms or individuals who wish to make use of this rule must be approved by the Superintending Engineer of the South Western Circle and that such approval may be withdrawn for any just cause

3 Measurements shall be made daily as soon as possible after a vessel arrives at the toll station From the 1st April to the 30th September measurements shall be made between the hours of 6 A M and 5 P M and tickets under Rule 5 shall be delivered between the hours of 7 A M and 6 P M From the 1st October to the 31st March measurements shall be made between the hours of 7 A M and 4 P M, and tickets under Rule 5 shall be delivered between the hours of 8 A M and 5 P M

REPORT ON THE ROAD AND PUBLIC WORKS CESS OPERATIONS OF THE LOWER PROVINCES FOR THE YEAR 1904 1905

NOTIFICATION

No 468½T R P —The 28th September 1905 —The following extracts from the Report of the Board of Revenue on the Road and Public Works Cess operations in the Lower Provinces for the year 1904 1905 are published for general information

L A GAIT,

Offg Secy to the Govt of Bengal

No 5358A , dated Calcutta, the 28th August 1905

From—S L MADDOX, Esq , Offg Secretary to the Board of Revenue, L P ,
To—The Secretary to the Government of Bengal, Financial Department

3 Both cesses were levied at the maximum rate of one anna in the rupee in the 43 districts in which the Cess Act, IX (B C) of 1880, is in force The current demand of land revenue of these districts was Rs 4,01,38,184, and the valuation, or gross rental, amounted to Rs 18,12,99,084

Rate land revenue demand and gross rental

Demands, collections balances and remissions

4 In the following table the demands, collections, balances and remissions of the year are compared with the two preceding years —

Year	Demand			Collections	Percentage of total collections on current demand	Balance	Percentage of the balance on the total demand	Remissions
	Current	Arrear	Total					
	Rs	Rs	Rs	Rs		Rs		Rs
1902 1903	95 94 201	16 70 927	1 12 65 128	96 34 504	100 4	16 39 104	14 5	67 751
1903 1904	98 41 734	16 29 013	1 14 70 747	97 68 192	99 2	17 12 989	14 9	76 434
1904 1905	1 00 05 005	17 01 539	1 17 06 544	1 00 4 906	100 4	16 63 454	14 2	71 037

The increase of Rs 1,63,271 in the current demand, as compared with the previous year was mainly due to revaluations in the districts of Rangpur (Rs 47,403), Noakhali (Rs 39,365), Gaya (Rs 28,842), Rajshahi (Rs 17,267) and Hazaribagh (Rs 16,400) It is satisfactory to note that with the large increase in the current demand there was an increase in collections by Rs 2,77,114, giving a percentage of 100 4 against 99 2 in the preceding year The balances were reduced from Rs 17,12,989 to Rs 16,63,454 and the percentage of the balance on the total demand from 14 9 to 14 2 The remissions and reductions which amounted to Rs 71,037, against Rs 76,434, were chiefly granted in the districts of Burdwan, the 24 Parganas, Nadia, Khulna, Rangpur, Noakhali and Gaya and call for no special remarks

5 The districts are grouped in two classes —(i) those in which the collections attained the prescribed standard of 100 per cent or more on the current demand, and (ii) those in which the collections were short of that standard The marginally noted districts fall under class (i), and in their case no explanation is necessary In the first seven districts the percentage of collections was more than 105 Of the 21 districts in which the percentages did not reach the standard, explanations in regard to Chittagong (99 6), Monghyr (99 6), Bogra (99 4), Muzaffarpur (99 4), Birbhum (99 2), Murshidabad (99 1), Malda (99 1), Hooghly (98 9), Saran (98 6) Purnea (98 2), and Backergunge (98 1) may be dispensed with as they attained percentages in excess of 98

Working of the Certificate procedure

7 The total number of certificates filed for the realization of cess arrears was 95,759, against 95,037 in the preceding year The increase was shared by the Burdwan, Chittagong, Presidency, Chota Nagpur, and Orissa Divisions, while there was a decrease in the Patna, Dacca, Bhagalpur, and Rajshahi Divisions The increase in Hooghly, Midnapore, the 24 Parganas, Murshidabad, Jessore, Backergunge, Chittagong, Tippera, Bhagalpur, Puri and Palamau was due to the filing of certificates for accumulated petty arrears of cesses to avoid limitation, and in Cuttack to the increase in the cess demand of the recent revaluation, which came into effect from 1st April 1903, and to the filing for the first time of certificates for revenue free estates The increase in the districts of Shahabad and Muzaffarpur was the result of the energetic measures taken for the recovery of the arrear demand In Hazaribagh, the issue as a special case of certificates on the holders of rent free lands for arrears exceeding Re 1 increased the number of cases from 326 to 500 The cases disposed of were in advance of the institution in all the Divisions, except Presidency, Rajshahi and Chittagong It is reported that the Burdwan Certificate Department was thoroughly overhauled during the year, and was twice inspected by the Collector The changes introduced by him have led to an improvement in the working of the Department, and the percentage of disposal has risen from 42 2 to 74 0

Mr Carey, the late Collector of Hooghly, also paid particular attention to the administration of this Department The percentage of disposal in that district rose from 61 4 to 68 9 as compared with the preceding year, and that of pending cases was reduced from 38 5 to 31 0

The total number of certificates for the whole Province pending at the close of the year shows a reduction as compared with the previous year, the percentage on the total number for disposal being 18 5 against 20 6

Objections against certificates

8 The total number of objections filed and disposed of was 6,320 and 6,278, against 6,525 and 6,359, respectively, in the previous year The largest number of objections disposed of was in the districts of Shahabad (1,325), Saran (973), Burdwan (590 and Gaya (512) In 705 cases, against 660 in the preceding year, the certificates were cancelled for such reasons as the death or desertion of judgment debtors, exemption of lands lying within municipal limits, double assessments, non registration of names of holders of rent free lands, errors in the Land Registration Registers and wrong entries in the ledgers The number of cases in which reductions were made in the amount certificated decreased from 432 in 1903 1904 to 228

Stage of procedure at which demands were satisfied

9 In 24,799 cases, against 25,738 in 1903 1904, arrears were recovered on the mere issue of notices, in 38,601 against 33,369 on the issue of notices for sale of defaulters' moveable properties, and in 16,371 against 18,950 on the issue of notices for the sale of defaulters' immoveable properties Of the total number of sales (2,610 against 2,732 in 1903 1904), 1,068 against 1,158 were set aside under sections 20 and 21 of the Public Demands Recovery Act I (B C) of 1895 as amended by Act I (B C) of 1899

The highest number of sales set aside was in the districts of Darbhanga (187), Muzaffarpur (151), Patna (112), Monghyr (97) Shahabad (79), Saran (60) and the 24 Parganas (59)

Gross rental

15 The road cess was first assessed under Act X (B C) of 1871 in 40 districts, at a gross rental or valuation of Rs 13,11,68,432 Subsequently the districts of Khulna and Palamau were created and the Cess Act, IX (B C) of 1880, was extended to them and to parganas Dhalbhum and Porahat in Singhbhum In the Sonthal Parganas in which the Act is being gradually introduced, the valuation of some recently resettled estates was completed and given effect to from the beginning of the current financial year The gross rental shows an increase from Rs 17,84,20,536 in 1903 1904 to Rs 18,12,99,084, or of Rs 28,78,551, which was chiefly due to valuations and revaluations

Merits of officers

17. The following Deputy Collectors who were in charge of the Cess Department for the whole year have been favourably mentioned —

Babu Rai Charan Ghosh, 24 Parganas
,, Hari Pada Bhattacharjya, Burdwan
,, Jogendro Nath Chuckerbutty, Manbhum

In the districts mentioned against the names of these officers the collections were above the standard of 100 per cent on the current demand fixed by Government

The good work of the following Revaluation Officers has also been brought to the notice of the Board —

Maulvi Syed Mujibur Rahman, Malda
Babu Har Sahay Lal, Champaran

REPORT ON THE ADMINISTRATION OF THE EXCISE DEPARTMENT IN THE LOWER PROVINCES BENGAL, DURING THE YEAR 1904 1905

NOTIFICATION

No 472T S R —The 29th September 1905 —The following extracts from the Report of the Commissioner of Excise, Bengal, on the Administration of the Excise Department in the Lower Provinces of Bengal, during the year 1904 1905, and from the letter from the Board of Revenue reviewing the Report, are published for general information

E A GAIT,
Offg Secy to the Govt of Bengal

No 6003B, dated Calcutta the 24th August 1905

From—J T RANKIN, Esq, I C S Offg Secretary to the Board of Revenue, L P,
To—The Secretary to the Government of Bengal, Financial Department

I AM directed by the Board of Revenue to submit the accompanying report received from the Commissioner of Excise, Bengal, on the administration of the Excise Department during the year 1904 1905

Member in charge
THE HON'BLE MR K G GUPTA I C S

2 The results of the year's operations may be thus summarised The total receipts amounted to 168 lakhs (an increase of five lakhs over the receipts of the year before), of which 143 lakhs or 85 per cent were contributed by the three principal sources of revenue viz (1) country spirit, (2) *ganja*, and (3) opium The following table shows the consumption of, and revenue from, each of the three articles mentioned above in the years 1903 1904 and 1904 1905 —

YEAR	COUNTRY SPIRIT						GANJA			OPIUM		
	OUTSTILLS			DISTILLERY LIQUOR								
	Number of licenses	Total receipts	Incidence per license	Consumption in gallons L P	Total receipt	Incidence per gallon L P	Consumption in maunds ed ed to *chur*	Total receipt	Incidence per maund	Consumption in maunds	Total receipt	Incidence per maund

The incidence of taxation was higher than in the year before in all cases *Ganja* yielded a larger revenue on a smaller consumption, and the increase in the consumption of distillery liquor amounted to 1 per cent only Opium shows a falling off both in consumption and revenue The average license fee for an outstill was also higher than in the preceding year

4 The Commissioner of Excise does not view with complacence the decrease in the number of licenses issued in Calcutta at the last triennial settlement A reduction has been made in the number of shops for the sale of intoxicating liquors in Calcutta with reference to the representation made by the local Temperance Federation, it having been found that there were some areas where facilities for obtaining alcoholic liquors were in excess of requirements

5 The numerous instances of closing shops or removing them to less objectionable sites show that due regard was paid to all reasonable complaints

6 The Commissioner of Excise discusses the difficulty of obtaining suitable sites for shops for the sale of country spirits in Calcutta, and is in favour of the acquisition of sites and the construction by Government of buildings for such shops Apart from the fact that any such measure is likely to lay the Government open to the reproach of directly participating in the liquor traffic, there are obvious economic objections to which due weight has not been given The alternative suggested by Mr Geake was to induce the owners of buildings which are now used as country spirit shops to make the agreements coterminous with the periods of the licenses, and when the licenses fall in,

to lease the buildings to the successful bidders at the next auction This question was discussed at a recent Conference held under the presidency of the Member in charge to define the relative powers of the Commissioner of Police, Calcutta, and the Commissioner of Excise, with reference to objectionable sites and structural defects of excise shops in Calcutta, and it was decided that an attempt should be made in this direction before the next triennial settlements There is no doubt that the difficulty of securing unobjectionable sites, which is further aggravated by the opposition of old licensees, very prejudicially affects free competition

7 The figures quoted by the Commissioner of Excise show that undue facilities are not afforded in Bengal for the consumption of country spirits, as the shops are few in number and widely apart as compared with the other Provinces He is in favour of a general increase in the number of shops, but so long as there are no illicit dealings and no genuine demand for additional shops, it must be taken for granted that the existing number is sufficient The fact that the area and population served by each shop in Bengal are much larger than in the other Provinces does not, by itself, constitute a reason for any increase in Bengal Local conditions vary so widely even within the Province that it would be impossible to allocate shops to the several districts according to the area and population of each district Thus in Noakhali there were over a lakh of persons to each country spirit shop, while the number in Palamau was about 5,000 only The population of the former district is mainly Muhammadan, while in the latter district, Hindus and aboriginal tribes, who indulge more largely in drink, predominate The Board cannot view with favour any proposal for generally increasing the number of shops

8 During the year under report the quantity of Madras rum consumed was nearly four times as large as in the previous year The Commissioner of Excise does not offer any explanation of this large increase, though it appears from his remarks that it was partly due to importations on account of Government

11 The practice of using *kuchla* seeds (nux vomica) or any other poisonous substance in the preparation of *pachwai* should be firmly put a stop to

12 Considerable improvement has been made in the system of supervision and control over the manufacture and storage of *ganja* in Rajshahi, and the higher average outturn in two successive years is a guarantee that the cultivators can no longer keep back any large quantities out of the produce of their fields The Commissioner of Excise thinks that regular smuggling still goes on, but Mr Rainy, who was deputed in the season of 1904 to supervise the manufacture and storage of *ganja* and who made careful enquiries on the subject, reported that there was no large and systematic smuggling from Naugaon, and the measures which have since been adopted are all in the direction of checking illicit dealings

13 Hitherto four recognized varieties of *ganja* have been manufactured in Bengal from the same plant, and duty on these kinds has been levied at different rates proportionate to their supposed narcotic value But the endeavours to regulate the rates of duty in this way were not successful, and it was frequently necessary to revise them The distinction between the different kinds of *ganja* has been abolished with effect from the 23rd May 1905, and it is expected that the variety which is richest in narcotic matter, viz , *chur*, will bear the duty best and will be the only one in use

14 There was a decrease of Rs 14,498 in the total Excise revenue derived from opium, and this falling off is chiefly due to the issue of a limited quantity of opium for sale by retail vendors in Chittagong The system of restricting the supply of opium to licensed vendors in Chittagong was reintroduced with effect from the beginning of the year 1904 1905, under Government Order No 1708S R, dated 11th March 1904, as the Government of India desired that the experiment of checking the consumption of opium in Burma should be given every chance of success The local officers and the late Commissioner of Excise were of opinion that the restrictive system should be reintroduced, and the Board observed that in Chittagong this system, though not altogether free from objection, was preferable to unrestricted issues A

limit of 60 maunds for the year 1904 1905 was accordingly fixed after careful local inquiry, and it has not yet been demonstrated that the amount is too small, as the quantity issued to vendors during the year was only 57 maunds 19 seers

15 The Board will await the submission of a full report on the sale of morphia in Calcutta It should be ascertained how the large quantities of morphia sold in Calcutta are disposed of It is sad to think how the use of the most deleterious stimulants has a tendency to spread chiefly because a very small quantity can produce much temporary exhilaration, and while the strenuous efforts of the Excise Department are being directed against the pernicious cocaine habit with but partial success, there is reason to apprehend that morphia is being more largely resorted to These facts should not be lost sight of in taking measures for checking the consumption of well known but less harmful intoxicants

16 It would be desirable to confine the right to sell drugs capable of being used as intoxicants to druggists or chemists holding diplomas from recognized institutions, but such qualified druggists would not always be available in the mufassal Judging from the large seizures of cocaine imported or smuggled by private persons, it seems likely that most of the drug illicitly sold is not procured from the druggists

17 The measures taken with a view to place licit country spirit within the reach of the consumers and to enforce local responsibility in the Sonthal Parganas appear to have had the desired effect The number of persons arrested for illicit distillation fell from 700 in 1903 1904 to 51 in the year under report That this decrease is not due to any apathy or inactivity on the part of the detective officers is sufficiently proved by the fact that the consumption of duty paid spirits in this district rose from 33,462 gallons L P in 1903 1904 to 41,774 gallons L P in the year under report The largest number of arrests during the year for illicit distillation took place in Angul The evil can be checked by increased vigilance and by raising the number of shops so as to make licit liquor available within fairly easy reach

22 The year is marked by bringing to maturity two important reforms, which have been initiated since its close, viz , (1) the elimination of differential rates of duty for *ganja* and the introduction of a single uniform rate, which will have the effect of leaving only one variety in use It has simplified accounts, reduced freight, and improved storage, handling and packing, and has once for all put an end to the impossible task, attempted from time to time, of fixing the rate of duty according to the amount of narcotic matter present in each variety (2) Introduction of the Contract System for the supply of country liquor In July 1904, Mr Badshah was deputed to Madras and Bombay to study the systems in force in those Presidencies The results of his enquiries are embodied in his "Note on country spirit", and his suggestions and recommendations have been so far adopted that according to the programme which has received the sanction of Government, the outstills which form such an unsatisfactory feature of the excise administration of Bengal will disappear in a few years and the Contract Distillery System be introduced throughout the Province A beginning has been made this year in Midnapore and Orissa, and so far with success, and the system will be largely extended during the next and succeeding years The small central distilleries are being closed, and liquor will be supplied by a few large distilleries employing the most improved plant and machinery and producing wholesome spirit free from impurities At the same time both wholesale and retail prices will be carefully regulated so as to prevent the evil effects of a monopoly

23 The Member in charge visited the Patna distillery on the 11th August 1904, and examined the question of water supply and the system of issuing coloured liquor from the distillery He also inspected the Russa distillery

24 Mr K J Badshah was in charge of the Department for about seven months of the year, and Mr Geake for the remaining period Mr Badshah has since retired He showed exceptional energy and capacity in the discharge of his duties, and the Board are very sorry to lose his services To Mr Geake the Board's acknowledgments are due for his successful administration of the Department and for an interesting and suggestive report

Total revenue and charges

6 The Excise revenue and charges of the Province for the last five years are shown below —

Period.	Revenue	Charges	Net Revenue	Percentage of Charges
	Rs	Rs	Rs	
1900 01	1 46 48 409	6 73 358	1 39 75 051	4 59
1901 02	1 50 25 317	6 75 818	1 43 49 499	4 49
1902 03	1 57 87 729	7 72 606	1 50 15 123	4 89
1903 04	1 62 96 470	8 12 836	1,54 83 634	4 98
1904 05	1 67 90 652	8 14 375	1 59 76 277	4 85
Difference of the past two years	+ 4 94 182	+ 1 539	+ 4 92 643	— 13

The net revenue shows an increase of Rs 4,92,643, or 3 18 per cent, over the figures of the previous year, and is the highest on record

Revenue under different heads

11 The total revenue under the several heads of excisable articles was Rs 1,67,90,652 against Rs 1,62,96,470 in the previous year, showing an increase of Rs 4,94,182, or 3 03 per cent The increase was common to all but eleven districts The largest increase (Rs 79,685) took place in Calcutta It was also considerable in Saran (Rs 54,331), Shahabad (Rs 49,947), Palamau (Rs 41,405), Darbhanga (Rs 38,971) and Muzaffarpur (Rs 32,159) On the other hand, the decrease was heavy in Chittagong (Rs 48,542), Birbhum (Rs 19,68), Manbhum (Rs 13,158), Midnapore (Rs 11,180) and Murshidabad (Rs 10,998)

There was an increase under every head, except *Pachwai*, Opium, Miscellaneous, *Siddhi* and Cocaine The largest increase occurred, as in the previous year, under the head "Country spirits," being Rs 3 64,230 *Ganja* comes next with an increase of Rs 1,29,065 followed by Rum and Imported Wines, which yielded an increase of Rs 19 330 and Rs 6,504 respectively The largest decrease (Rs 14,749) occurred under the head *Pachwai* Opium comes next with a decrease of Rs 14,498 The fluctuations in the revenue from the different excisable articles are discussed in the sections appropriated to each

Taking the population of Bengal according to the last census at 75 millions, the incidence of the excise revenue of the year is 3 annas 7 pies per head, against 3 annas 6 pies in the previous year

13 The triennial settlement made in Calcutta for the three years 1905 06 to 1907 08 resulted in an increase of Rs 1 55,834, inclusive of the fees for the sale of *tari* and imported liquor and for other licenses settled under the fixed fee system The result is satisfactory, considering that the number of licenses has been reduced from 724 to 708 Vendors have a tendency to congregate in the most lucrative localities hence it was possible to reduce the number where shops clustered too thickly, but the reduction in the number of shops is by no means an unmixed blessing It enables a wealthy combination to enter the field and create a monopoly, which means raising of prices to a prohibitive extent and driving the consumers to have resort to illicit practices or to indulge in more deleterious drugs and intoxicants Even if prices are not raised, when shops are too scarce, excisable articles are readily procurable in other places, notably in prostitutes' houses, where sale cannot be proved and where no control can be exercised over the assembly of bad characters.

SECTION II—COUNTRY SPIRIT

Sites in Calcutta.

17 In Calcutta before a shop is opened on a new site, a notice is issued and any objections urged by the inhabitants of the locality are considered in communication with the Commissioner of Police A certificate from the

Commissioner of Police is required before a license can be finally granted by the Superintendent of Excise Revenue In the case of liquor shops, in particular, a list of objectionable sites is furnished by the Commissioner of Police half yearly, and the defects pointed out are remedied

Reduction in the number of shops

18 For many years it has been the object of the Excise authorities to reduce the number of shops, but there is reason to fear that in many districts this policy has been carried to extreme lengths The marginal figures show the area and population per shop in Bengal as compared with some other Provinces It cannot but be conceded that the labouring classes in India, as in other countries will have an intoxicant of some sort Alcoholic liquor, *ganja*, and opium are believed by a majority of their respective consumers to be a necessity, and not merely a luxury It is essential to place these articles within the reach of habitual consumers without interposing prohibitory difficulties and yet without providing undue facilities Failing this, illicit practices, and consequent wholesale demoralisation, are the inevitable result In the Eastern and Central districts the number of liquor shops has been so reduced that the trade has fallen into the hands of a few monopolists The license fees, and consequently the price, have been forced up to such a pitch that consumption has been reduced to a minimum The price has placed country liquor beyond the reach of the mass of the population, and the result is that they have taken to cheaper stimulants and intoxicants In Dacca, Mymensingh Nadia, and Khulna, country liquor of the strength usually sold in Calcutta at Re 1 4, costs Rs 2 a bottle Even in the outstill tracts of Pabna and Bogra such liquor cannot be bought below the Calcutta price When liquor is taxed so highly as to become licitly unobtainable by those who most desire it, illicit practices are inevitable The mere fact that shops continue year after year to pay fees which, on the licit consumption, entail a heavy monthly loss, shows clearly that their income must be supplemented by improper means The Excise staff is not sufficiently strong to enforce abstinence or even temperance, consequently illicit practices are rife everywhere

Province	Number of country spirit shop	Area per shop	Population per shop

		Sq m	
Bengal	3 409	4 84	21 889

Distillery liquor—Licenses for retail sale

22 The total number of licenses issued was 1,250 against 1,237 in the previous year, showing an increase of 18 In Burdwan, four new shops were opened to check illicit distillation and to meet ascertained local demands In the Sonthal Parganas, ten additional shops were sanctioned for inaccessible localities where illicit distillation was known to be freely carried on

Distillery liquor License fees

23 There was an increase in the revenue from license fees from Rs 13,56,030 to Rs 14,08,978 or to the extent of Rs 52,948 The increase is marked in Calcutta (Rs 21,791), Patna (Rs 14,753), the 24 Parganas (Rs 7591), Faridpur (Rs 6,020) and the Sonthal Parganas (Rs 4,487), and was due to competition at the annual sales and to larger collections of advance fees In Burdwan there was a decrease of Rs 4,154, due to the settlement of nine country spirit shops in the Raniganj Subdivision at reduced fees It is stated that, by reduction of license fees, the vendors were able to bring the price of licit liquor almost to the level of the price charged for illicit liquor, which was extensively manufactured in the locality

Distillery liquor Consumption and duty

24 The consumption of distillery liquor in L P gallons rose from 692,664 to 700,100, a very small increase of 7,436 gallons L P, compared with the 40,655 gallons, increase of the previous year Of the 31 districts in which the distillery system is in force, there was an increase of 34,862 gallons L P in 17 districts, and a decrease of 27,426 gallons L P in the remaining 14 districts The increase was marked in the Sonthal Parganas (8,312 gallons L P), Calcutta (6 552 gallons L P), Shahabad (3,775 gallons L P), Burdwan (3,659 gallons L P) and Saran (3,475 gallons

L P) The increase in the Sonthal Parganas was due to the opening of ten new shops, to the numerous detections in the previous year, and to the exceptionally good outturn and high prices of shellac The increase in Calcutta occurred during the third and a portion of the fourth quarter of the year, and is ascribed to the severity and prolongation of the cold season this year The increase in Shahabad was due to competition among vendors owing to the suppression of monopoly and also to poor out turn of *tari* The increase in Burdwan was due to the lowering of the license fees of certain shops in the Raniganj subdivision, to the opening of four new shops, and to the issue of weak liquor of the strength of 50° U P The posting of one Sub Inspector with four peons in thana Assansole and the colouring of distillery liquor are also causes which led to the increased consumption of licit liquor In Saran there was increased consumption during the outbreak of the plague The decrease was large in Patna (18,694 gallons L P), and was due to the introduction of the system of colouring distillery liquor, combination among the licensees, and better out turn of *tari* Plague materially affects the consumption of liquor On its first appearance there is a sharp rise in consumption as a prophylactic, but when the population is decimated and a general exodus of the wealthier classes takes place, the urban consumption naturally falls The decrease of 3,769 gallons L P in Gaya was due to increase in the retail price consequent upon an increase both in the license fees and in the rates of duty levied on liquor of lower strengths issued at 78° and 84° U P which were paying duty of 7 and 5 annas against 80° and 86° U P paying a duty of 6 and 4 annas respectively, in the previous year In Bhagulpur there was a decrease of 1501 gallons L P, due to plague The decrease of 847 gallons L P in Murshidabad is attributed to the absence of Railway workmen and high retail prices In Birbhum there was a decline of 727 gallons L P, due to the impoverished condition of the consumers In Nadia the consumption of distillery liquor was affected by monopoly of vend A Deputy Inspector was placed under the Collector of Backergunge for six months to investigate the conditions under which the trade in country spirit is carried on in that district It appears from his report that illicit distillation exists in the Sadar and the Perozepur subdivisions of the district, and that the local vendors participate in the trade At a recent visit I found that the 39 shops in the district show a monthly loss exceeding Rs 500 in spite of the fact that liquor is sold at Rs 9 per gallon It may safely be assumed that the vendors resort to unlawful methods in order to recoup themselves As a result of the increased consumption in the Province, the receipts from duty rose from Rs 24,46,787 to Rs 24,79,837 or by Rs 33,050

Distillery liquor total receipts

25 The total receipts, including license fees distillery fees, and duty, amounted to Rs 39,74,582 against Rs 38,90,440 in the previous year, showing an increase of Rs 84,142

Fermentation and distillation

26 In distillation and rectification a certain degree of excellence has been attained, but in fermentation the methods, even in our best distilleries are little, if at all, better than at the outstills The ignorance and obstinacy of the distillers combined with the absence of scientific knowledge on the part of the Superintendents militate against improvements in this respect Concentration of manufacture and reduction in cost of production are the objects to which our efforts may now be most profitably directed It is far from economical to maintain a distillery and a costly establishment in a district like Backergunge, merely to supervise the manufacture and issue of eight gallons per diem

Outstills—licenses

27 The total number of licenses issued was 2,154 against 2,145 in the previous year, showing an increase of 9 There was an increase of 13 outstills in 10 districts, due to the opening of new outstills in order to meet local requirements and to check illicit practices, while 4 outstills were closed in three districts as being unnecessary

Outstills—license fees

28 The revenue from license fees increased from Rs 40,13,222 to Rs 42,93,310 or by Rs 2,80,088 Of the 30 districts in which the outstill system was in force there was an increase of Rs 3,08,523 in 25 districts and a decrease of Rs 28,435

in the remaining 7 districts The increase was large in Saran (Rs 44,140), Palamau (Rs 37,672), Patna (Rs 28,180), Ranchi (Rs 27,347), Muzaffarpur (Rs 26,661), Darbhanga (Rs 25,133), Shahabad (Rs 23,285), Purnea (Rs 18,411), and Hazaribagh (Rs 15,091) The increase was due to competition at the annual sales and to larger collections of advance fees The decrease was heavy in Manbhum (Rs 16,653) and Midnapore (Rs 10 017) The decrease in Manbhum is attributed to the decrease in the number of coolies working in local collieries and on Railway lines, and also to ruinous competition among vendors in previous years The decrease in Midnapore was due to the abolition of outstills from the current year and consequent non realization of advance fees

Total revenue

29 The total receipts from distillery liquor and outstills were Rs 82,67,892 against Rs 79,03,662 showing an increase of Rs 3,64,230

Contract Distillery system

33 Under Government Order No 492T F, dated the 13th May 1904, my predecessor, Mr Badshah, visited Madras and Bombay to study the Excise systems of those Provinces with a view to improving the system of excise of country spirits in the Province of Bengal The results of his enquiries have been embodied in his "Note on Country spirit" In accordance with the recommendations made by him, sanction has been accorded, *vide* India Government Order No 8029Exc, dated the 20th December 1904, to the introduction of the contract distillery system for the supply of country spirit as an experimental measure into Midnapore and into the districts of the Orissa Division, except Angul, with effect from the 1st April 1905

SECTION III—COUNTRY RUM

Licenses

34 There was no change in the number of licenses or in the conditions under which country rum is sold

License fees

35 The receipts from license-fees amounted to Rs 22,280 against Rs 21,762 in the previous year, showing an increase of Rs 518 The increase was due to settlement of a rum shop in Calcutta, which had remained closed during the preceding year

SECTION IV—IMPORTED LIQUOR

Licenses

39 The total number of licenses issued for the sale of imported liquor was 661 against 65 in the previous year, showing an increase of 8 Three new retail licenses were issued in Backergunge to check direct importations from Calcutta which are liable to lead to illicit sales

Revenue

40 The total receipts which are derived from license fees alone, amounted to Rs 3,83,455 against Rs 3,76,951 in the previous year, showing an increase of Rs 6,504 There was an increase amounting to Rs 18,423 in 25 districts, while in 19 districts there was a decrease of Rs 11,919 In two districts the revenue was stationary No license was taken out for the sale of imported liquor in Angul The increase was large in Hooghly (Rs 1,618), 24 Parganas (Rs 1,929), Darjeeling (Rs 2,898), Mymensingh (Rs 1,834), Tippera (Rs 2,302), and Patna (Rs 2,269) A decrease of Rs 6,489 in Calcutta is mostly nominal, being due to the payment of a portion of the year's demand in advance in March 1904

41 The following figures showing imports, have been compiled from the report on the Maritime Trade of Bengal for the year 1904 05 —

Importation

	1903-04 Gallons	1904 05 Gallons
Ale, beer and porter	827,765	726,086
Spirits and liqueurs—		
Brandy	64,391	69 246
Whisky	220 178	195,886
Other sorts of spirits and liqueurs	137,037	152,964
Total Spirits and Liqueurs	421,606	418,096
Wines	94,297	94,557
GRAND TOTAL	1,343,668	1,238,739

There was a decrease in the imports of both fermented and spirituous liquors The decline is most noticeable in the case of whisky and the deficit is to some extent supplied by a larger import of spirit of an inferior quality Plain German spirit shows an increase of 6,731 gallons, L P, the quantity imported being 55,271 gallons against 48,540 gallons in the previous year

SECTION VI —TARI

46 The licenses issued totalled 15,501 against 16,075 in the previous year, showing a decrease of 574 The receipts amounted to Rs 10,98,769 against Rs 10,95,699 showing an increase of Rs 3,070

Statistics

47 The number of licenses issued was 13 817 against 13,839 showing a decrease of 22 The decrease was large in Patna (194), where many Pasis died of plague In Gaya there was an increase of 63 due to the splitting up of highly taxed shops The receipts from fermented *tari* increased from Rs 10,87,971 to Rs 10,91,481, showing an increase of Rs 3,510 The increase was large in Gaya (Rs 9,210), Muzaffarpur (Rs 4,909), Darbhanga (Rs 3,457), the 24 Parganas (Rs 3,163), Bhagalpur (Rs 1,489), and Champaran (Rs, 1,096), and was due to favourable settlements, increase in the number of licenses, better collection of the year's demand, and realization of a larger amount of advance fees On the other hand, the decrease was heavy in Patna (Rs 5,660), Calcutta (Rs 3,770), Howrah (Rs 2,870), the Sonthal Parganas (Rs 2,154), Puri (Rs 1,333) and Saran (Rs 1,139) The decrease in Patna was due to non settlement of several shops on account of plague and also to smaller collection of advance fees in March 1905 In Calcutta the decrease is nominal and was due to the payment of a portion of the year's demand in advance in March 1904 In Howrah the decrease was due to late settlement and to the closure of several shops for non payment of license fees The decrease in the Sonthal Parganas and Puri is attributed to the settlement of shops at reduced fees in the absence of competition In Saran the value of *tari* shops was affected by decreased sale owing to the prevalence of plague As in previous years, the bulk of the revenue was derived from the seven districts of the Patna Division and Monghyr and Bhagalpur, which contributed between them Rs 6,88,511, or 62 per cent of the total amount The revenue was also considerable in Burdwan (Rs 11,166), Hooghly (Rs 36,162), Howrah (Rs 32,978), the 24-Parganas (Rs 99,975), Calcutta (Rs 74,866), Murshidabad (Rs 10,944), Purnea (Rs 13,609), Malda (Rs 10,369), the Sonthal Parganas (Rs 19,639), Cuttack (Rs 40,506), and Puri (Rs 13,505) There was no revenue from fermented *tari* in Jalpaiguri, Darjeeling, Tippera, and Noakhali

Fermented *tari*

48 Licenses for the sale of fresh *tari* were issued in 26 districts against 27 districts in the previous year The number of licenses fell from 2,236 to 1,684 and the revenue from Rs 5,957 to Rs 5,467 In Tippera there was a decrease of 536 in the

Fresh *tari*

number of licenses issued and of Rs 536 in revenue The decrease was due to the fact that the propriety of taxing unfermented *tari* was for some time under consideration in consequence of a memorial presented by the Tippera People's Association against such taxation Orders to continue the existing system were issued in the latter end of the year

SECTION VII —*PACHWAI*

Statistics

50 The total number of licenses issued was 14,473 against 13,958 in the previous year, showing an increase of 515 The receipts fell from Rs 5,97,938 to Rs 5,83,189 or by Rs 14,749

Licenses for retail sale and revenue

51 The number of licenses issued decreased from 1,676 to 1,672 The decrease of 4 was due to the closure of certain unnecessary shops The revenue fell from Rs 5,48,889 to Rs 5,33,405, or by nearly 3 per cent The decrease was heavy in Birbhum (Rs 10,056) and is said to be due to the bad material condition of the consumers owing to the successive failure of the rice crops I cannot, however, look upon this as a valid excuse, seeing that the labouring classes have had ample occupation on railway construction, and the proximity of the coal mines also ensures employment for all who desire it I ascribe the falling off to defective administration, and I have taken steps to supply a better class of officers to that district The decrease was also large in the Sonthal Parganas (Rs 5,370), due to the reduction of license fees on account of the loss suffered by the vendors The fees rose very high in that district at the two previous settlements, as the number of shops is purposely kept very low in order to avoid furnishing the Sonthal with any excuse for indulging in drink As in previous years, the bulk of the *pachwai* revenue was derived from Burdwan (Rs 2,37,755) and Birbhum (Rs 1,29,293), the total revenue on this account from the two districts being Rs 3,67,048 or nearly 63 per cent of the entire revenue The receipts were also considerable in the Sonthal Parganas (Rs 51,159), Darjeeling (Rs 40,669), Murshidabad (Rs 24,460), and Bankura (Rs 22,283)

Consumption of *pachwai* by the tea garden coolies in Jalpaiguri

53 It appears that the consumption of *pachwai* by the tea garden coolies in the district of Jalpaiguri is neither taxed nor controlled, and that unlimited brewing of *pachwai* is leading to increased drunkenness among them After consulting several tea planters and local officials, I came to the conclusion that the time had arrived for more stringent measures Accordingly, in my letter No 23T E, dated the 22nd May 1905, I have recommended the opening of shops at nominal fees for the supply of pachwai in the tea garden area

Alcoholic strength of *pachwai*

54 Several samples of *pachwai* have been examined The alcoholic strength is ordinarily about 9 under proof, or much the same as that of the "Khasia" liquor consumed at the outstills in South Bihar The use of "Kuchila" seeds (nux vomica) to impart a slightly bitter taste is not uncommon I heard of persons at a shop in Burdwan being attacked with symptoms of poisoning and subsequently visited the shop "Kuchila" seeds were discovered in possession of the vendor, and the manufactured *pachwai*, when analysed, showed traces of "nux vomica," but not to an extent calculated to prove dangerous It appeared probable, however, that on a previous occasion an excessive quantity had been used with the result that several customers had been seriously inconvenienced Ordinarily *pachwai* is a harmless and nutritious beverage, but miners in particular earn for it a bad reputation by their excesses They get it poured into them literally by the gallon and become so distended as to be incapable of speech or action Still they manage to come up smiling next day, which would not be the case if they had indulged in spirits

SECTION IX —*GANJA*

Statistics

58 The area cultivated was 2,779 bighas, which is below the limit of 976 acres fixed by the Government of India. Conditions were favourable, and a full crop was secured for the second year in succession Reduced to *chur* equivalent, the average outturn was even higher than in the previous year, being 2 maunds 21 seers 9 chittaks against 2 maunds 18 seers 11 chittaks

Rates of duty

63 There was no change in the rates of duty on *ganja* during the year under report, but since the close of the year the following uniform rate of duty has been fixed on all descriptions of *ganja*, whether *chur*, round or flat, in Bengal, Bihar, and Orissa with effect from the 23rd May 1905 —

	Rs
In Bengal and Bihar	11 per seer
In Orissa	9 , ,

Consumption and export of duty paid *ganja*

64 As in previous years, *ganja* was consumed in every district in the Province The consumption was largest in Calcutta It was also considerable in the districts of Mymensingh, Monghyr, Shahabad, Purnea, Bhagalpur, and Dacca The quantity of each kind of *ganja* issued on payment of duty and the total duty levied thereon in the last three years are shown in the following statement —

Year	Quantity issued on payment of duty					Total duty levied
	Chur	Round	Flat		Total	
			Small twigs	Large twigs		
	Mds	Mds	Mds	Mds	Mds	Rs
1902 03	2 463	1 470	134	1 312	5 379	16 67 691

The most noticeable feature is the enormous increase in the consumption of flat *ganja*, which is dealt with in the next paragraph Reduced to their *chur* equivalent, the figures showing the issues of *ganja* for the three years are respectively 4,179 maunds, 5,992 maunds and 5,762 maunds The consumption in Bengal, taking all varieties together, amounted to 5,601 maunds, as against 4,954 maunds, while 638 maunds were exported duty paid as against 541 maunds in the previous year, showing an increase of 647 and 97 maunds respectively There was thus an increase of 744 maunds of *ganja* in the duty paid issues, while duty levied shows a comparatively small increase of Rs 77,237 only This is due to increased consumption of flat *ganja* (large twigs) on which the duty was the lowest The *chur* equivalent of the *ganja* consumed in Bengal in the year was 3,378 maunds against 3,494 maunds in the previous year There was thus a decline in consumption, though the amount realized from duty shows an increase owing to the enhanced rate of duty on *chur ganja* prevailing throughout the year as against three months in the previous year

Different varieties of *ganja*

65 The enhancement of the duty on *chur ganja* from Rs 9 to Rs 12 a seer in January 1904 was manifestly higher than that commodity could bear in comparison with the other varieties It was assumed that *chur* contained just double the amount of narcotic matter contained in flat *ganja*, but the dealers managed to convert one seer of flat *ganja* into about 11 chitaks of serviceable *chur* in stead of into 8 chitaks only, as was anticipated when the duty was revised Consequently by taking flat instead of *chur*, the dealers made a clear profit of from two to three chitaks. The result was a great demand for flat twigs, and an accumulation of *chur* in the ware house, much to the disgust of the cultivators

who had manufactured larger quantities of *chur* in view of the large demand for that variety in previous years Eventually it was found necessary to prohibit the issue of flat *ganja* from the ware house and ultimately a single rate of duty has been fixed, which will tend to cause the gradual elimination of all sticks and inert matter from the *ganja* and the supply to consumers of a purer and more carefully prepared article

Total Revenue

66 The total receipts amounted to Rs 34,60,787 against Rs 33,31 722 in the year 1903 1904, the net increase being Rs 1,29,065 The increase was most marked in the districts of Calcutta (Rs 19,905), Shahabad (Rs 18,795), Patna (Rs 15,865), Mymensingh (Rs 10,384), Bhagalpur (Rs 9,664), and Faridpur (Rs 7,881)

SECTION XIII—OPIUM

Licenses for retail sale

86 The total number of licenses issued for the retail vend of opium was 1,748 against 1,716 in the previous year, showing an increase of 32 There was an increase of 38 shops in 14 districts, due to the opening of new shops to meet ascertained local demand and to check illicit practices The increase was large in the opium producing district of Hazaribagh (11) and was due to the opening of several experimental shops at nominal fees to bring the licit drug within easy reach of the consumers and prevent their having recourse to the cultivators to meet their requirements In 5 districts, 6 shops, which appeared unnecessary or in which the sales were small, were closed

License fees

89 The revenue from license fees rose from Rs 7,29,854 to Rs 7,37,645 or by Rs 7,791 The increase was most marked in Chittagong (Rs 7,696), due to reintroduction of the restrictive system which enables the shops to demand famine prices In Calcutta, there was a decrease of Rs 4,000, due to some of the important shops having remained closed for a portion of the year

Consumption and duty

90 The quantity of opium sold was 2,235 maunds, 9 seers against 2,258 maunds, 10 seers in the previous year, or a decrease of 23 maunds, 6 seers The decrease was large in Chittagong (70 maunds, 12 seers), and was due to the reintroduction, with effect from the 1st April 1904, of the system of restricting the issues of opium to licensed vendors according to local requirements, in order to check the smuggling of opium into Aracan In Akyab, during the year 1903 04, 7,711 seers or 192 maunds, 31 seers of opium were issued, while in 1904 05, owing to the reintroduction of the restrictive system in Chittagong, the issues have gone up to 9,055 seers, or 226 maunds, 15 seers The decrease in Chittagong considerably exceeds the increase in Akyab, and the difference of 36 maunds, 28 seers of opium is explained by the suggestion that a part of the opium smuggled from Chittagong towards the close of the year 1903 04 has been consumed in Akyab during the year of report According to the last census the population of Akyab is 481,666, of which only 275,400 are Arakanese and Burmese most of the rest are Muhammadans The population of Chittagong is 1,303,250, of which 968,054 are Muhammadans The Collector thinks that 10 per cent of the Muhammadans may be set down as opium eaters Akyab consumed 226 maunds and Chittagong could only get 57 maunds With about one third of the population, Akyab consumes nearly four times as much opium as Chittagong It is customary for the Excise authorities in Burma, who profess to be endeavouring to save the Burman from himself, to blame Bengal for all the difficulties they experience in opium administration on the Arakan side, but it is self evident that by our restrictive measures we impose considerable hard ships on the Chittagong consumer and place a premium on smuggling into that district In malarial districts along the sea coasts opium is looked upon as a necessity of life, and it requires powerful arguments to justify a measure which places the drug practically beyond the reach of the legitimate consumer There is reason to believe that the smugglers are shifting their quarters and that opium is smuggled into Chittagong from the United Provinces, Patna and Calcutta The increase was large in Calcutta (9 maunds, 31 seers), Gaya (5 maunds, 6 seers), Malda (3 maunds, 7 seers , Cuttack (12 maunds, 13 seers), Balasore (12 maunds, 1 seer), and Puri (7 maunds, 11 seers) The increase in Calcutta, after a

persistent decrease for three years, points to a revival of smuggling operations towards Burma The increase in Gaya is attributed to suppression of illicit practices and increased consumption of licit drug The increase in Malda was due to competition among vendors and consequent reduction in retail prices In Cuttack also the retail prices of opium were reduced on account of competition among the vendors In Balasore the increase is attributed to the improved condition of the consumers on account of bumper crops It is reported from Puri that the consumption of opium increased on account of prevalence of malarial fever In the 47 districts, there was an increase of 73 maunds, 2 seers in 24 districts and a decrease of 96 maunds, 8 seers in 23 districts As a result of the decreased consumption, receipts from duty fell from Rs 18,62,238 to Rs 18,39,949

Total receipts

91 The total receipts amounted to Rs 25,77,594 against Rs 25,92,092 in the previous year, showing a decrease of Rs 14,498 There was an increase of Rs 7,791 in license fees, but a decrease of 22,289 in duty

Morphia

93 It has been brought to notice that large sales of morphia are taking place in Calcutta, and measures will doubtless soon become necessary to check the spread of this habit Fuller information on the subject is being collected

SECTION XIV —COCAINE

Licenses and revenue

96 Licenses for the sale of cocaine are granted to approved druggists and chemists, a nominal fee of one rupee being charged for each license The number of licenses issued was 244 against 344 in the previous year, and the receipts from license fees amounted to Rs 267 against Rs 349 Licenses were restricted to the actual requirements of each district The sale of drugs is under no supervision or control in this province, and for Excise purposes at least it will be necessary to confine the term "druggist or chemist" to one who holds a license or diploma from a recognized institution

Abuses

97 The number of persons convicted of illicit sale and possession of cocaine was 304, viz, 273 in Calcutta, 14 in Hooghly 6 in Bhagalpur, 5 in Dacca, 3 in Monghyr 2 in the 24 Parganas and 1 in Nadia In Calcutta strenuous efforts were made to prevent the spread of the cocaine habit The number of cases detected was the largest on record, being 298 against 190 in 1903 04 and 69 in 1902 03 In Hooghly a strict watch was kept on the borders of French Chandernagore whence cocaine finds its way into British territory It is reported from Dacca and Monghyr that the detection of several important cases has checked the cocaine habit to some extent The drug has for some time past been finding its way to this province from Madras, where restrictions have been imposed only since May last During the year two tins of cocaine were found in a package imported from England, the contents of which were declared to be Printed Music The goods were confiscated by the Collector of Customs, and a penalty of Rs 1,000 was imposed on the importers under the Sea Customs Act

SECTION XV —OFFENCES AGAINST THE EXCISE AND OPIUM LAWS

Arrests and convictions

99 During the year under review, 3,349 persons were arrested for offences against the Excise and Opium laws, compared with 4,024 persons in the previous year, showing a decrease of 675 The district of the Sonthal Parganas accounts for the whole of this decrease, as arrests there fell from 798 in 1903 04 to 107 only in 1904 05 The natural reaction after the repressive measures of the previous year and the action of the District Officer in personally warning all headmen of their responsibility in this matter had considerable effect The conviction of sundry informers for concocting false cases also probably made others reluctant to come forward and help Excise Officers The *Sonthal* looks upon fresh liquor as a panacea for all bodily ailments It appears that informers went about in the guise of *ojhas* or medicine men, induced the credulous *jungle* folk to distil liquor, and then secured their detection The percentage of convictions was 87 8, against 89 6 in the previous year

RESOLUTION ON THE ADMINISTRATION REPORT OF THE COMMISSIONERS OF THE PORT OF CHITTAGONG FOR THE YEAR 1904 1905

No 163 Marine

Government of Bengal

MARINE DEPARTMENT

Dated Calcutta the 2nd October 1905

RESOLUTION

READ—

The Administration Report of the Commissioners of the Port of Chittagong for the year 1904 1905

The financial position of the Port Fund during the year under review is shown in the statement below —

	1903 1904	1904 1905
	Rs	Rs
Opening balance	4 656	57 354
Receipts during the year	1 33 552	1 28 951
Total	1 38 208	1 86 305
Expenditure of the year	80,854	78 975
Closing balance	57 354	1 07 330

The receipts during the year fell short of that of the previous year by Rs 4,601, the decrease being chiefly due to a refund of Rs 3,958 by the Assam Bengal Railway Company in 1903 1904 for jetty account and to the payment of Rs 3,000 by Messrs Bulloch Brothers & Co in March 1904 for laying moorings at Guptakhal

The main items of revenue, viz, port dues, mooring fees and river dues, show a small increase of Rs 601, though there has been a slight falling off in some of the chief staples of trade

2 The expenditure shows a decrease of Rs 1,879, due chiefly to the balance of the *Gekko* loan having been written off under the orders of the Government of India

3 Three hundred and thirty nine vessels entered the port, against three hundred and fifty six in the previous year, or a reduction of 17, but the aggregate tonnage increased from 283,999 tons to 307,207 tons Of these, 16 vessels of 36,996 tons entered from foreign ports and 323 vessels of 270,211 tons from home ports against 20 vessels of 44,452 tons from foreign ports and 336 vessels of 239 507 tons from home ports in the previous year The decrease in the number of vessels entering from foreign ports is ascribed by the Commissioners to a falling off in the jute trade The number of vessels entering from home ports decreased by 13, but their tonnage advanced by 30,704 tons The former is attributable to fewer native crafts being employed in the jute trade with Naraingunge and the latter to steamers of large tonnage being employed in the coasting trade

4 The principal articles of export were grain, jute and tea, and of imports, salt, mineral oil and other kinds of oil Jute showed a slight falling off due to an inferior jute crop, but the other staples showed an increase Under imports mineral oil showed a falling off due to smaller importation of petroleum from Burma The total trade of the port, however, showed an increase by nearly 11 lakhs of rupees, due mainly to the larger shipment of grain and Assam tea to Cochin and the United Kingdom respectively

5 The appliances of the port and the light houses have been kept in proper order during the year The steam tug *Gekko* was only once required for towing a sailing vessel in and out during the year, but she was otherwise

usefully employed on other port duties, such as swinging vessels at the moorings and visiting the light houses The earnings of the tug amounted to Rs 720, while the expenditure was Rs 8,317

6 The jetties at double moorings were by the orders of the Government of India and under a notification from this Government transferred from the limits of the Port of Chittagong to the Assam Bengal Railway authorities who were empowered to levy jetty tolls and to exercise control over vessels making use of those jetties

7 The general question of improving the port by revetting the river bank, erection of additional jetties and purchase of a dredger was a subject of correspondence between this Government and the Government of India and the Port Commissioners The purchase of a dredger for improving the Port so as to enable vessels of large draft entering it is under consideration Mr Bell, the Port Consulting Engineer, has been asked to prepare plans and specifications of the dredger considered most suitable, and as soon as these are received tenders will be called for The Port has now the services of an Engineer who has been employed in preparing estimates and generally in making necessary arrangements An estimate for the revetment work has been sanctioned and funds allotted, and the work will shortly be started

Arrangements are also being made by this Government for improving the lighting of the port and its approaches The *Sarsuti*, lately one of the pilot brigs at the mouth of the Hooghly, is now being fitted up as a light vessel and when ready will be placed at the South Patches shoal to replace the existing buoy which has always proved unsatisfactory Two lights are also being obtained from England to be erected at selected places in the river so as to enable vessels to take advantage of the night tides which are as a rule higher than the day tides

8 The figures below show the financial position of the Pilotage Fund —

	1904 1905	1903 1904
	Rs	Rs
Opening balance	64 624	58 184
Receipts of the year	19 622	19,205
Total	84 246	77 389
Expenditure of the year	14 280	12 765
Closing balance	69 966	64 624

One hundred and four vessels were piloted in and 105 vessels out, against 102 and 105 respectively in the preceding year There was only one accident for which the pilot was warned

FINAL FORECAST OF THE JUTE CROP OF BENGAL, 1905

THE following note is published for general information

R W CARLYLE,
Offg Chief Secy to the Govt of Bengal
The 3rd October 1905

DEPARTMENT OF LAND RECORDS AND AGRICULTURE, BENGAL

FINAL FORECAST OF THE JUTE CROP OF BENGAL, 1905

Explanatory —This forecast relates to the same 27 districts of Bengal as the preliminary forecast Reports from Collectors have already been placed at the disposal of the public

2 *Trade conditions* —The demand for jute continues to be keen and the consumption by Indian mills to rapidly increase The approximate figures of the previous seasons are noted below for easy reference The figures are taken from the publication of the Director General of Statistics entitled "Area and Yield of certain principal crops in India (7th issue 1905)"—

Season	lakhs of bales
1900	65 26
1901	74 38
1902	65 77
1903	72 41
1904	74 00

For 1904 the Chamber of Commerce estimates 70 01 lakhs, expressed in bales of 400 lbs each, under heads Export, Consumption by Mills, and Country Consumption

3 *Weather conditions* —The special appendix inserted in the preliminary forecast showing rainfall, district by district, between March and June, from 1902 onward, in the jute producing area of the province has been compiled up to the 18th September and inserted in this forecast also The figures in the six important districts are reproduced here —

	1902	1903	1904	1905
	(includes the whole of Sept)			(up to 18th Sept)
Mymensingh	92 85	84 99	79 38	98 86
Rangpur	82 00	68 57	67 02	79 69
Tippera	84 53	59 42	70 67	74 05
Purnea	65 63	51 65	44 77	63 73
Dacca	88 45	54 04	58 29	75 02
Pabna	70 78	43 44	61 79	68 37

Damage by flood is reported from Faridpur, Purnea, Bogra and Jessore (and Dhubri in Assam) Slight damage by flood in Netrakona (Mymensingh) was reported early in September and recently by insects in Basirhat (24 Parganas) and Bongaon (Jessore)

The floods are reported to have damaged quality rather than outturn

4 *District Returns* —(1) *Area* In the preliminary forecast the area returned by Collectors was 3,161,400

acres as against 3,144,600 in this forecast The net difference of 16,800 is made up from the following districts —

	First Forecast	Final Forecast	Difference
Nadia	50 000	45,000	—5,000
Murshidabad	23 300	40 800	+17,500
Jessore	41,300	41,300	—500
Rangpur	387,000	385,000	—2,000
Bogra	134 000	135 000	+1,000
Faridpur	160,800	134,000	—26,800
Balasore	5,200	4,200	—1,000

The reduction of area in Faridpur is ascribed to flood, and the increase in Murshidabad to recent enquiry and check

On the whole I accept the area returned by the District officers, and consider that 3,145,000 acres may be taken as the area under crop in Bengal in 1905, as against 2,850,000 acres estimated in 1904, *i e*, an increase of more than 11 per cent

(ii) *Outturn* —The important districts which estimate a lower outturn than in the preliminary forecast are Mymensingh 100 against 101, Jessore 74 against 91, Bogra 62 against 87, Faridpur 70 against 80, and Purnea 94 against 100 On the other hand Dinajpur raises its estimate from 70 to 100 and Dacca from 80 to 90, while the very important district of Rangpur shows a slight improvement, 66 to 69 The Rangpur estimate is considered by Mr Beatson Bell to be too low On the whole, the estimates of Collectors work out to 86 5 per cent, almost the same figure as in the preliminary forecast I think it is safe to take 87 per cent as the Provincial outturn per acre

5 *Estimate* —Calculating in outturn of three bales to the acre as 100 per cent in an area of 3,145,000 acres *in Bengal*, the outturn of 87 per cent should represent a trifle over 82 lakhs of bales

Not included in the above are the following —

		Bales
Assam	Official estimate of 30th August 1905	82,800
Cooch Behar	Do do of 15th September 1905	52 800
Nepal	Trade returns for 1904 05 (same figure taken)	41,000
	Total	176,600

From railway stations outside Bengal 12,000 bales were carried to Calcutta by the East Indian Railway during the season ending 31st July 1905 From Madras I have received a telegram to say that no true jute is cultivated there Thus the jute crop of 1905, from all sources excluding Madras, should be nearly 84 lakhs of bales

6 Stocks of 1904 are reported to be very low indeed

S L MADDOX,

In charge Department of Land Records and Agriculture, Bengal

CALCUTTA,

The 20th September 1905

[On an average of the five years ending 1903-1904 the area under jute crop in the territory to which this forecast relates has represented some 96·3 per cent of the total area under jute crop in Bengal and Assam]

The mean pressure temperature, etc, are deduced from the traces of the Barograph and Thermograph and from eye observations

The maximum and minimum temperatures are obtained from self registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory They are exposed under a thatched shed open at the sides and are suspended four feet above the ground

The barometer readings are corrected to those of the standard, Newman's No 80 formerly at the Surveyor General's Office

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain gauge is one foot above the ground Rainfall reported on any day is for 24 hours preceding 8 A M of that day

IRRIGATION DEPARTMENT

The 4th September 1905

No 22—Notification—It is hereby notified for general information that the Hon'ble the Lieutenant Governor of Bengal proposes under the provisions of Sections XI and XII of Act V (B C) of 1864 to pass the following Rules in supersession of those now in force on the Nadia Rivers with effect from the 15th November 1905 —

W A INGLIS,
Secy to the Govt of Bengal

PROPOSED RULES

The rules shall apply to the undermentioned navigable channels which are included under the designation Nadia Rivers, viz —

(1) the river Bhagirathi throughout its whole course from the Ganges to Nadia, or to its junction with the Hooghly
(2) the river Hooghly from Nadia to its junction with the river Mathabhanga
(3) the river Jalangi from the Ganges at Nadia
(4) the river Bhairab from the Ganges to Nadia
(5) the river Mathabhanga from the Ganges to its junction with the Hooghly
(6) such portions of the river Ganges as may be within five miles of the entrance for the time being of the Bhagirathi, the Bhairab the Jalangi and the Mathabhanga rivers respectively

1 Every vessel entering or making use of the Nadia Rivers shall be liable to measurement for the purpose of ascertaining the tolls payable In case of any reasonable doubt the persons appointed by the Lieutenant Governor to collect tolls and officers to whom such persons are subordinate shall have authority to again measure a vessel, notwithstanding that it was measured before

2 Vessels for the purposes of the determination of tonnage shall be divided into two classes as follows —

Class I To include all vessels of the usual native types of build

Class II—To include all steamers flats barges and other square built boats

The tonnage of every vessel whether laden or empty shall for the purposes of Act V of 1864 and of these rules be determined by the following measurements —

Class I—

(*a*) The product of one quarter the length of the vessel from stem to stern measured outside and along the water line multiplied by the greatest interior breadth of the vessel, multiplied by the interior depth from the water line to the bottom of the vessel is to be taken as the number of maunds on which toll shall be levied

(*b*) The measurement of the length is to be made in feet rejecting inches The measurements of the breadth and depth are to be made in feet and quarters of a foot rejecting any remainder of less than a quarter of a foot

(*c*) The maundage on which the amount of toll is calculated shall be reckoned to the nearest integral multiple of 20 maunds rejecting any remainder of less than 20 maunds In the case of a vessel exceeding 1 000 maunds by measurement, the maundage shall be reckoned to the nearest integral multiple of 100 maunds, rejecting any remainder of less than 100 maunds

Class II—

(*d*) For vessels of Class II the number of maunds obtained by the system of measurement prescribed for Class I shall be increased by one half For vessels of this class exceeding 5 000 maunds by measurement, the maundage shall be reckoned to the nearest integral multiple of 500 maunds rejecting any remainder of less than 500 maunds

(*e*) In the case of steamers that have been surveyed under Act VI of 1884 the gross tonnage entered in the certificate shall be accepted as the tonnage of the steamer in lieu of measurement

In all cases, the gross tonnage of steamers whether as entered in the certificate, or as determined by measurement, shall be reduced by one-third as an allowance for engine space

(*f*) For vessels of Class II which are furnished with reliable way bills or manifests the gross maundage of cargo shown by the manifest may at the option of the employer of the vessel be taken as the maundage on which toll shall be charged provided that the amount of tollage shall in no case be less than the amount which would be payable in respect of the tonnage of the vessel when empty In the case of steamers that have been surveyed under Act VI of 1884 tolls shall be charged on the cargo as thus determined in addition to the tolls chargeable on the net tonnage of the steamer itself provided that firms or individuals who wish to make use of this rule must be approved by the Superintending Engineer of the South Western Circle, and that such approval may be withdrawn for any just cause

3 Measurements shall be made daily as soon as possible after a vessel arrives at the toll station From the 1st April to the 30th September measurements shall be made between the hours of 6 A M and 5 P M , and tickets under Rule 5 shall be delivered between the hours of 7 A M and 6 P M From the 1st October to the 31st March measurements shall be made between the hours of 7 A M. and 4 P M , and tickets under Rule 5 shall be delivered between the hours of 8 A M and 5 P.M.

EXISTING RULES

The following Rules having reference to the undermentioned navigable channels, viz —

(1) the river Bhagirathi throughout its whole course from the Ganges to Nadia or to its junction with the Hooghly
(2) the river Hooghly from Nadia to its junction with the river Matabhanga
(3) the river Jallanghi from the Ganges to Nadia
(4) the river Bhairab from the Ganges to Nadia,
(5) the river Matabhanga from the Ganges to its junction with the Hooghly
(6) such portions of the river Ganges as may be within 5 miles of the entrance for the time being of the Bhagirathi the Bhairab the Jallanghi and the Matabhanga rivers respectively

have been passed this day by the Lieutenant Governor of Bengal under the provisions of sections XI and XII of the Canals Act 1864 (No V B L C) and will have effect from and after the 1st September 1879

1 Except as may be herein provided every vessel before leaving any toll station shall pay tolls in accordance with Schedule A appended to these rules

2 The tonnage of every vessel shall for the purpose of the Canals Act 1864 and of these rules be determined by the following measurements —

(*a*) The product of half the length of the vessel from stem to stern measured along the water line multiplied by the interior greatest breadth of the vessel multiplied by the depths from the water line to the bottom of the vessel is to be taken as the number of maunds upon which toll shall be levied

(*b*) The measurement of the length is to be made in feet rejecting inches and the measurement of the breadth and depth in feet and quarters of a foot rejecting portions of less than a quarter of a foot

(*c*) In calculating the amount of toll to be levied any fraction of 100 maunds less than 25 maunds is to be omitted exceeding 25 and not exceeding 50 maunds is to be charged as 25 maunds only exceeding 50 maunds and not exceeding 75 maunds is to be charged as 50 maunds only and exceeding 75 maunds as 75 maunds only Above 1 000 maunds no fraction of 100 maunds is to be charged

(*d*) In the case of steamers the tonnage as determined by clauses (*a*), (*b*) and (*c*) shall be reduced by one half as an allowance for engine and cabin space

(*e*) In the case of a steamer that has been surveyed under Act VI of 1884, the tonnage entered in the certificate shall be taken to be the tonnage of the steamer for the purpose of these rules, no further deduction being made for engine space

19 Measurement shall be made between the hours of 6 A M and 6 P M from April 1st to September 30th, and between 7 A M and 5 P M from October 1st to March 31st Tickets under Rule 12 shall be issued within the hours of 7 A.M and 5 P M in summer and 8 A M and 5 P M in winter

PROPOSED RULES

4 Every cargo vessel, immediately after entering the toll station limits, shall proceed to the measuring ghât or to such other place as the Toll Collector may direct and shall remain there until it has been measured in accordance with these rules After measurement the vessel shall be removed from the measuring ghat without delay In any case the person in charge of a vessel shall place it in such situation as he may be required to by the Toll Collector

5 After measurement the measuring muharrir shall deliver to the person in charge of the vessel a pass in the form appended (Appendix E I) and shall inform such person verbally of the amount of toll payable by him The person in charge of the vessel shall then take the pass to the Toll Collector's Office and shall there pay the toll demanded The Toll Collector shall then deliver to him a ticket in the form appended (Appendix E II) which shall bear the stamp of the Toll Collector's Office and the signature of the Toll Collector or in his absence that of the Toll Daroga The vessel shall then be entitled to proceed without further charge

6 The person in charge of a vessel conveying passengers or laden with horses cattle fowls or other live stock or with fruit fish or other articles which are liable to be injured by detention shall not be required to attend at the toll office but shall pay toll to the measuring muharrir at the rate of six annas per oar as provided in item I of the schedule of tolls hereto annexed and the muharrir shall deliver to such person a ticket in the form appended (Appendix E III) which shall entitle the vessel to proceed without further charge

7 (*a*) All tolls are payable on demand and shall be paid as provided in Rules 5 and 6 before a vessel is allowed to proceed

(*b*) Provided that vessels belonging to individuals or firms specially approved by the Superintending Engineer of the South Western Circle which approval may be withdrawn for any just cause may be permitted to proceed without prepayment

(*c*) The person in charge of a vessel approved as in clause (*b*) shall on passing a toll station stop and deliver at the station a form specifying such particulars regarding the vessel and its cargo as may be required by the Superintending Engineer South Western Circle

8 The tickets mentioned in Rules 5 and 6 must be kept on board the vessel and must be produced for inspection when demanded by any person authorised to collect tolls or by any officer to whom such person is subordinate If on demand the ticket is not produced such person or officer shall assess the tollage as provided in Rule 2, and shall demand payment of toll and unless and until toll is paid or the original ticket or a duplicate is produced as evidence that toll has already been paid the vessel shall be liable to seizure and detention under the provisions of Section IX of the Act

9 If a vessel on which toll has been duly paid be unable by reason of the shallowness of the water or of any other natural obstacle to pass along any one of the Nadia Rivers she may be permitted to pass along any other of the rivers without extra charge except as provided in Rule 13 If the vessel be unable to pass along any of the rivers the Toll Collector may at his discretion and after consideration of the circumstances of the case refund the amount of toll which may have been paid on such vessel

10 The payment of toll at one toll station shall entitle a vessel to travel once along the whole length of the river on which that toll station is situated whether or no the cargo is changed during the journey except as provided in Rule 13

11 A vessel containing passengers, or used for fishing shall pay toll only once in the same day provided that no passenger vessel shall be allowed this privilege unless returning empty or conveying the same passengers as on the first trip The day to be reckoned from midnight to midnight

12 A cargo vessel laden or empty, which has paid toll at a toll station, shall not be required to again pay toll if returning to the same toll station on the same day reckoned as in Rule 11 except as provided in Rule 13

13 A vessel which has been measured and paid toll accordingly shall, in case additional cargo is taken on board or a part or whole of the original cargo is changed for a cargo on which a higher rate of toll is leviable, be subject to re measurement whether on the same or another day reckoned as in Rule 11, and to the payment of the amount by which the total toll leviable on the re measurement exceeds that originally paid

14 Passenger boats having on board cargo other than what is necessary for the use of the passengers for the trip and which measure 20 maunds and upwards shall be dealt with as cargo boats

15 (*a*) Boats having on board only articles which are necessary for the use of the crew for the trip shall be dealt with as empty

(*b*) Empty jars, tins casks bags, or other receptacles used or to be used only for the purpose of holding cargo shall not be considered as cargo

16 No cargo shall be taken out of any boat, whether measured or unmeasured, within toll station limits without the permission of the Toll Collector

17 Tickets and passes issued in respect of any vessel, boat, raft, or float are not transferable to any other vessel, boat raft, or float

18 (*a*) Duplicates of lost tickets of which the numbers and dates can be satisfactorily established will be granted by the Collector of Tolls

EXISTING RULES

10 Immediately after entering the chowkey limits the manjee of every cargo vessel shall take such vessel to the measuring ghât, and such vessel shall remain there until it shall have been measured in accordance with the rules for measurement

11 After measurement shall have been duly effected the measuring mohurir shall deliver to the manjee of the vessel a pass in the form annexed (Appendix E I) and shall inform the manjee verbally of the amount of toll payable by him

12 The manjee shall take the pass to the Toll Collector's Office and shall then pay the amount of the toll demanded from him He shall then receive a ticket in the form annexed (Appendix E II) which shall entitle him to pass the chowkey limits free of all further charge This ticket shall bear the stamp of the Toll Collector's Office and the signature of the Toll Collector or in his absence that of the Toll Darogah

13 The manjee or other person in charge of a vessel conveying passengers only, or laden with horses cattle fowls or other live stock or with fruit fish or other articles which may be likely to be spoiled by detention shall not be required to attend at the Toll Office but may pay toll to the mohurir in charge of the chowkey boat at the rate of four annas for each oar of the vessel and shall receive from the mohurir a ticket in the form annexed (Appendix E III) which shall entitle such vessel to pass chowkey limits without further charge

6 If a vessel on which toll has been duly paid be unable by reason of the shallowness of the water or of any other natural obstacle to prosecute her voyage up the river, she may, provided she returns to the toll station without unloading or taking in cargo be permitted to pass along the other river (if any) without extra charge If the vessel be unable to pass along either river the Toll Collector may, at his discretion and after consideration of the circumstances of the case refund the amount of toll which may have been paid on such vessel

7 Every boat or vessel carrying passengers or used for fishing shall pay tolls only once in the same day provided that no passenger vessel shall be allowed this privilege unless returning empty or conveying the same passengers as on the first trip The word day in this and the following rule shall mean a day between sunrise and sunset, and shall not mean 24 hours

8 An empty cargo vessel or boat leaving and returning empty to the station limits on the same day having paid toll shall not be required to pay toll a second time A vessel leaving the chowkey limits laden and paying toll accordingly shall not be required to pay toll again if returning empty on the same day

9 Boats or vessels which may have entered the Nadia Rivers unladen or partially laden and paid toll accordingly shall if they receive on board any additional freight be subject to re measurement and to the payment of any additional amount of toll which may be leviable on account of the additional maundage

14 Passenger boats having on board cargo other than what is necessary for the passengers for the trip and which measure 25 maunds and upwards shall be dealt with as cargo boats

15 Empty boats having on board articles which are only requisite for the subsistence of the crew for the trip shall be considered as empty

16 No cargo shall be taken out of any boat either measured or unmeasured within the toll limits without the permission of the Toll Collector

17 Tickets and passes are not transferable

18 Passes collected at the chowkey boats shall be brought back into the Toll Office on the morning of the following day and counterrolled

PROPOSED RULES

(b) In case the person in charge of a boat desires to have a duplicate of the ticket mentioned in Rule 5 in order to make over to the owner of the boat or cargo or for any other legitimate purpose not constituting an evasion or breach of these rules, the Toll Collector shall issue a duplicate at the time the request is made, whether at the time of issue of the original ticket or subsequently

19 Any vessel raft float or any number of vessels rafts or floats fastened or connected together in any way which by reason of difficulty of proper control, or of excessive over-all length or breadth or depth is of such a nature as, in the opinion of the Executive Engineer Nadia Rivers Division to be likely to cause unavoidable damage to the bandalling or other training or dredging works in the rivers or to be likely to cause unavoidable obstruction to the traffic by grounding or sinking is prohibited from passing into or along any of the channels comprised in the Nadia Rivers

20 A vessel which has been detained under these rules or under Section IX of the Act may not be removed from the Nadia Rivers without the order of the Toll Collector until the toll due has been paid During such detention the manji owner or agent, must make arrangements for the safety of the vessel and cargo

21 All vessels whether the property of Government or of private owners, are liable for toll except those exempted by the provisions of Bengal Government Notification No 261, dated the 21st July 1890

22 The Supervisor may by written notice to be posted at the Toll Offices prohibit the dropping of anchors or the putting up of bamboos or luggees in any specified part of the channels comprising the Nadia Rivers or on the banks

23 No person shall wilfully or negligently allow a vessel to sink in the channels comprising the Nadia Rivers without the permission of the Supervisor

24 In every case of a sunken vessel, whether due to negligence or otherwise, the Supervisor and his subordinates shall offer every assistance in removing the same

25 When a sunken vessel has been recovered the Supervisor shall cause notices to be posted at the Toll Offices or other prominent places calling on those concerned to pay to the Toll Collector all toll which may be due, as well as the expenses incurred on the recovery of the vessel and cargo Should the sum due be not paid within fifteen days of the date of notice, the boat and its furniture or so much of it as may be necessary for the recovery of the dues will be sold under the procedure prescribed in Section IX of the Act

26 The purchaser of a vessel sold under the provisions of Section IX of the Act shall have the right to take it out of the channels comprising the Nadia Rivers on the day of purchase, or within such time as may be allowed by the Toll Collector without payment of tolls

27 When any laden vessel which has sunk has been recovered or when any laden vessel has been seized under the provisions of the Act or of these rules, the Supervisor shall give immediate notice of the recovery or seizure to the owner of the cargo or his agent, requiring the removal of the cargo without delay

28 If the Supervisor be unable to ascertain the name and place of business or the abode of the owner of the cargo of such vessel the notice prescribed in Rule 27 shall be effected by a notice exhibited in his office and by advertisement in at least two local newspapers

29 All vessels whether travelling or moored in the channels comprising the Nadia Rivers, shall, between sunset and sunrise, carry a white light in a lantern on the fore part of the vessel where it can be distinctly seen from all sides All steam vessels in motion shall carry the lights prescribed by the Board of Trade Regulations Barges or boats attached to a steam vessel whether in motion or moored shall carry the lights prescribed above

EXISTING RULES

20 Any person who may have lost or mislaid his measurement ticket may apply for a duplicate Such application shall be in writing, and shall set forth clearly the circumstances of the loss and shall be verified by the applicant The Toll Collector, if he be satisfied that no fraud has been intended shall supply a duplicate on receipt of a fee of eight annas in the case of a passenger boat or empty boat, and one rupee in the case of a laden boat

22 No fleet of vessels or rafts lashed together and exceeding 150 feet in length or carrying or floating timber exceeding in all twenty in number shall pass into or through any of the Nuddea Rivers at one time or abreast.

23 No single vessel or raft carrying or floating a greater number than twelve timbers shall pass into, or out of or through any of the Nuddea Rivers And no single vessel or raft carrying or floating more than six timbers shall pass into or through any of the aforesaid rivers between the 1st of December of any year and the 1st of July following

5 All vessels which may be employed solely in conveying troops on military duty, or military stores, or which may be employed solely in work connected with the maintenance or improvement of the Nuddea Rivers, as well as boats used by Police Officers on actual duty, shall be exempted from paying tolls This shall not be held to apply to Police Officers in transit from one district to another unless for the purpose of making an arrest or for holding an investigation

21 Any officer of Government or other person claiming exemption under Rule 5 shall be supplied by the measuring mohurir with a certificate in the form annexed (Appendix F IV) and shall fill up and return such form to the mohurir who shall thereupon grant a passenger ticket in form (E III) In case of doubt as to the good faith of any claim to exemption from toll, the measuring mohurir may detain the vessel for which exemption is claimed, and report the case for the orders of the Toll Collector

25 Owners and agents of steamers who may desire to avoid the delay consequent on payment of toll on passing toll stations may give notice to the Board of Revenue of their desire and willingness to pay toll in Calcutta on demand and on depositing such amount as the Board of Revenue may determine they shall be furnished with a certificate which shall entitle the steamer or flat to pass any toll station without detention the amount of toll due on account thereof being paid in Calcutta on demand, or deducted from the amount deposited with the Board of Revenue

26 The Commander of any vessel or vessels obtaining the privilege mentioned above shall leave at the toll station a certificate of having passed the toll station The certificate shall mention the date of passing It will be attached as a voucher to the bill, which will be presented for payment to the owners or agents of the vessel by the officer in Calcutta authorised to receive payment thereof

No 103 Marine.—It is hereby notified for general information that the Lieutenant Governor has been pleased to sanction the following revised rules for regulating the local traffic between Chittagong and Rangamati in supersession of those sanctioned under Notification No 134 Marine, dated the 10th December 1904

W A INGLIS,
Secy to the Govt of Bengal

Rules for the Steamer Service between Chittagong and Rangamati

1 THE Government steamer will ordinarily start from Chittagong weekly with the flood tide for Rangamati The time for leaving Rangamati will be previously notified by the Serang in charge with the approval of the Port Officer Chittagong

2 The above rule is subject to change dependent on season, which will always be previously notified by the Divisional Commissioner

3 The steamer will be at the ghat at least one hour before the time fixed for staring in order to allow for shipment of cargo

4 The following table gives the passenger fares between the termini and intermediate halting places —

	First class	Second class	Third class
	Rs	Rs A	Rs A
From Chittagong to all stations up to Chandraghona	3	1 8	0 8
Above Chandraghona up to Rangamati	6	3 0	1 0
Same rates to hold for down trips			
Return tickets 1st and 2nd class available for 3 months at 1½ fares			

N B—Metal cockery glass cooking utensils and furniture but no provision are supplied at first and second class stations

5 All Government officers, with the exception of the Divisional Commissioner, travelling by this service are required to pay the above fares

For hiring by the day outside port limits viz from 6 A M to 6 P M Rs 50 For every hour under way before 6 A M or after 6 P M Rs 8 per hour

If when under daily hire steam be used for any part of a day less than six hours the minimum charge shall be Rs 30 and Rs 5 for every additional hour when under way up to 6 P M

When laying at anchor without steam on engines Rs 10 per day of 24 hours

6 The steamer will stop at the following halting places to land and pick up passengers and cargo —

1 Lamboor Hât
2 Bhandarjuri
3 Sylock
4 Chandraghona
5 Kapti
6 Rainkhyong

7 The following are the rates of freight charged on different descriptions of goods from Chittagong to all stations up to Rangamati —

No	Description of goods	Freight Rs	A	P

(4) In sub section (4) of the same section, for the words and letter or clause (d)" the words and letters clause (d) or clause (f) shall be substituted

STATEMENT OF OBJECTS AND REASONS.

THE object of this Bill is further to amend the Indian Factories Act, 1881 (XV of 1881), so as to secure additional protection for the health and safety of operatives in factories An explanation of the several amendments which it is proposed to make is given in the subjoined *Notes on Clauses*

The 27th September 1905 J P HEWETT

Notes on Clauses

Clause 2 —The effect of this clause will be to bring within the purview of the Act certain small factories in the Bombay Presidency and elsewhere which work for a very short time only and are often the scene of many serious abuses

Clauses 3 and 4 —Clause 3 is purely formal, and is introduced in order to admit of section 10 (1) of the Act being re-enacted, by clause 4, with amendments and under a suitable heading

The amendments introduced by clause 4 direct that the midday stoppage of work required by section 5A for all operatives shall be notified in the factory in the same way as the intervals of rest required by sections 6 and 7 for women and children Section 5A (*1*) has been infringed in some cases and it is difficult to secure a convic tion for such infringements without direct evidence, which it is almost impossible to procure when no notice of the time of the stoppage has been posted up

Clause 5 reproduces section 12 of the Act with amendments requiring hoists or teagles, and hoist wells, trap doors and other similar openings near which people are liable to pass or be employed, to be kept at all times fenced the fencing to be to the satisfaction of, and in accordance with any orders given by, the local Inspector Fxpe rience has shown that hoists are more dangerous when at rest than while in motion as there is then nothing to draw attention to the well and it is necessary, for the preven tion of accidents, that all hoists teagles, wells, trap-doors and similar openings should be kept properly fenced An amendment has also been included to admit of any order made by an Inspector under this section being set aside by higher authority

Clause 6 —The words which it is proposed to repeal are rendered superfluous by the proposed new section 17A

Clause 7 —The object of this amendment is to require notices of the opening of factories to be sent to an officer appointed by the Local Government to receive them, instead of to the local Inspector In many places more than one Inspector has authority, and it is desirable that these notices should in each area be sent to one officer only

Clause 8 —The amendments proposed in section 15 by this clause are largely con sequential upon other amendments proposed in the Bill A new clause (*m*) has however, been added with the object of bringing within the scope of the penalty imposed by the section all acts or omissions which are contrary to the provisions of the Act or of the orders and rules issued under it and which are not covered by the preceding clauses This pro vision is necessary in order to make it possible to punish such offences

Clause 9 —The necessity has been proved of compelling an occupier of a factory, when absent, to leave in charge an approved and responsible agent to see that the provisions of the Act and the orders and rules made under it are carried out Clause 9 introduces a section (17A) containing the necessary provision

Clause 10 (*1*) —This amendment will bring section 18 (*a*) into line with the proposed new section 12

Clause 10 (*2*) —The proper lighting of a factory is almost as important for the permanent health of the operatives as is its ventilation, while the provision of sufficient privy accommo- dation is a very important sanitary measure and the effect of clause 10 (*2*) will be to make it clear that Local Governments have power to make rules on these subjects

Clause 10 (*3*) —It is necessary, in order to secure the safety of the operatives, that Local Governments have power to forbid smoking and the use of naked lights in certain portions of a factory, and to insist on the provision of sufficient means of exit in case of fire , and clause 10 (*3*) p oposes to give them these powers

Clause 10 (*4*) —The effect of this clause is to require the previous publication, in draft form, of rules as to means of exit in case of fire

STATEMENT OF OBJECTS AND REASONS

THE object of this Bill is further to amend the Indian Factories Act, 1881 (XV of 1881), so as to secure additional protection for the health and safety of operatives in factories An explanation of the several amendments which it is proposed to make is given in the subjoined *Notes on Clauses*

The 27th September, 1905 J P HEWETT

Notes on Clauses

Clause 2—The effect of this clause will be to bring within the purview of the Act certain small factories in the Bombay Presidency and elsewhere which work for a very short time only and are often the scene of many serious abuses

Clauses 3 and 4—Clause 3 is purely formal, and is introduced in order to admit of section 16 (1) of the Act being re-enacted, by clause 4, with amendments and under a suitable heading

The amendments introduced by clause 4 direct that the midday stoppage of work required by section 5A for all operatives shall be notified in the factory in the same way as the intervals of rest required by sections 6 and 7 for women and children. Section 5A (*1*) has been infringed in some cases and it is difficult to secure a convic tion for such infringements without direct evidence, which it is almost impossible to procure when no notice of the time of the stoppage has been posted up

Clause 5 reproduces section 12 of the Act, with amendments requiring hoists or teagles, and hoist wells, trap doors and other similar openings near which people are liable to pass or be employed, to be kept at all times fenced, the fencing to be to the satisfaction of, and in accordance with any orders given by, the local Inspector Expe rience has shown that hoists are more dangerous when at rest than while in motion, as there is then nothing to draw attention to the well and it is necessary, for the preven tion of accidents, that all hoists teagles, wells, trap-doors and similar openings should be kept properly fenced An amendment has also been included to admit of any order made by an Inspector under this section being set aside by higher authority

Clause 6 —The words which it is proposed to repeal are rendered superfluous by the proposed new section 17A

Clause 7 —The object of this amendment is to require notices of the opening of factories to be sent to an officer appointed by the Local Government to receive them, instead of to the local Inspector In many places more than one Inspector has authority, and it is desirable that these notices should in each area be sent to one officer only

Clause 8 —The amendments proposed in section 15 by this clause are largely con sequential upon other amendments proposed in the Bill A new clause (*m*) has however, been added with the object of bringing within the scope of the penalty imposed by the section all acts or omissions which are contrary to the provisions of the Act or of the orders and rules issued under it and which are not covered by the preceding clauses This pro vision is necessary in order to make it possible to punish such offences

Clause 9 —The necessity has been proved of compelling an occupier of a factory, when absent, to leave in charge an approved and responsible agent to see that the provisions of the Act and the orders and rules made under it are carried out Clause 9 introduces a section (17A) containing the necessary provision

Clause 10 (*1*) —This amendment will bring section 18 (*a*) into line with the proposed new section 12

Clause 10 (*2*) —The proper lighting of a factory is almost as important for the permanent health of the operatives as is its ventilation, while the provi ion of sufficient privy accommo dation is a very important sanitary measure, and the effect of clause 10 (*2*) will be to make it clear that Local Governments have power to make rules on these subjects

Clause 10 (*3*) —It is necessary, in order to secure the safety of the operatives, that Local Governments have power to forbid smoking and the use of naked lights in certain portions of a factory, and to insist on the provision of sufficient means of exit in case of fire, and clause 10 (*3*) proposes to give them these powers

Clause 10 (*4*) —The effect of this clause is to require the previous publication, in draft form, of rules as to means of exit in case of fire

RESOLUTION ON THE REPORT OF THE AGRICULTURAL BRANCH OF THE DEPARTMENT OF LAND RECORDS AND AGRICULTURE BENGAL FOR THE YEAR ENDING THE 31ST MARCH 1905

REVENUE DEPARTMENT—AGRICULTURE

Darjeeling the 5th October 1905

RESOLUTION—No 3909T—R

READ—

The Report of the Agricultural Branch of the Department of Land Records and Agriculture Bengal, for the year ending 31st March 1905

Read again—

Resolution on the same report for the year ending 31st March 1904

The Department was in charge of Mr S L Maddox from the beginning of the year to the 28th March 1905, when he made over charge to Mr N D Beatson Bell Altogether 156 days were spent by Mr Maddox on tour in connection with agricultural work and sericultural operations During the year under report the Department has been strengthened by the appointment of a Deputy Director of Agriculture Both the Director and Deputy Director and his two Assistants attended a meeting of the Board of Agriculture at Pusa in January, to which all Provincial Directors, officers of the Veterinary

Department and other scientific officers from the various Imperial and Provincial staffs in India were invited Their recommendations and suggestions are now being considered and carried out by the Director and his staff

2 *Agricultural Improvements* —The Lieutenant Governor gratefully acknowledges the special grant of Rs 12,000 allotted by the Government of India for agricultural improvements, and is glad to find that it has been applied to really practical objects, viz , the provision of nurseries for rearing silkworm seed under scientific and hygeinic principles and the free distribution of a manure which for several years in the Burdwan farm has produced exceptional results on the outturn of paddy

3 *Reorganization of the Agricultural Department* —Towards the end of the year under report, the Government of India announced that a large permanent grant would be given to every Province in India for the development of its Agricultural Department Proposals were accordingly submitted by this Government and recently a permanent grant of Rs 3,50,000 per annum has been allotted to this Province by the Government of India on the understanding that a proportionate reduction will be made in the event of the transfer of a certain portion of this Province to Assam The Lieutenant Governor now desires to make public the following scheme for the development of the Agricultural Department in this Province which has been provisionally accepted by the Government of India It is proposed to create a separate Director of Agriculture and to give him a complete staff of peripatetic experts A Provincial Agricultural College will also be established under the supervision of European and Indian professors Besides providing agricultural education for the sons of limited number of landholders, this College will provide trained men to supply the staff of all the other agricultural institutions in the Province, and to fill the graded Agricultural Service which the Lieutenant Governor hopes to form as soon as possible As trained men are turned out from the Agricultural College large farms will be opened at selected centres at which agricultural experiments will be undertaken with a special view to the agricultural wants of the tracts within which the experimental farm is situated A portion of the area will be set aside for seed selection, and it is hoped in course of time to place depôts for seeds, implements and manures at each experimental farm, and to supply them at the lowest possible prices to the public When an experimental farm is established agricultural improvements suited to the tracts of which it forms the centre will be brought home to the cultivators by means of demonstration farms These farms will be smaller and more numerous than the experimental farms They will be temporary in nature, and will be opened at such places and for such periods as occasion requires Apart from this general scheme it is proposed to retain a few special experts for certain important crops The Lieutenant Governor proposes to continue to give assistance to agricultural fairs and to other of means disseminating agricultural knowledge among the people In particular the several Agricultural Associations will be fostered and afforded financial support and expert advice when necessary

4 *Scientific Enquiries* —His Honour is glad to notice that the Department has during the past two years co operated with the Board of Scientific Advice in regard to the alleged deterioration of jute, and to observe that the conclusions at which the Board have arrived, viz , that there is not only no proof that any degeneration in either of the two species of jute plants has occurred, but there is strong evidence that the plants are now precisely as they were a century or more ago, will go far to allay the gloomy forebodings in consequence of which these enquiries were instituted The suggested legislation to penalize the fraudulent watering of jute is still under discussion. An attempt was made during the year under report to introduce superior varieties of Egyptian and American cotton, and the best varieties from other Provinces of India The Lieutenant Governor regrets that, owing to heavy and continuous rain and the unusal severity of the winter, the trial was a failure Scientific enquiry regarding the cultivation of cotton in Bengal is entirely at the experimental stage, and His Honour thinks that several years of investigation and seed selection must necessarily pass before the Department will be in a position to confidently recommend selected varieties to the raiyat, or to undertake seed distribution on a commercial scale to the public

5 *Irrigation Experiments*—Were undertaken on the lines indicated by the Irrigation Commission, especially with regard to economy in the use of water It appears that it is too early to summarise the results, and the experiments are being repeated at all the places at which they were tried last year The Lieutenant-Governor hopes that crop cutting experiments on fairly comparable irrigated and unirrigated areas will be conducted on a much larger scale during the coming season, and that the co operation of officers of the Irrigation and Agricultural Departments in the conduct of these experiments will establish the value of irrigation, and trusts that the results will be published in the vernacular and widely distributed

6 *Experimental Farms*—Besides the three farms, Sibpur, Chittagong and Cuttack, mentioned in the Report for 1903 1904, arrangements were made during the year under report for establishing two more farms (one at Rampur Boalia and the other at Rangpur) A consideration of the reports of the work done in each farm shows that the manuring of paddy with saltpetre and bone meal did not produce results in the Sibpur and Cuttack farms equal to those in the Burdwan farm The question of cattle breeding, which only arises in the Sripur farm, has been separately dealt with in the recent Resolution on the Report of the Veterinary Department This Government has decided to support the policy, laid down by the Inspector General of the Veterinary Department to the Government of India, of improving local breeds for agricultural purposes by a process of rigorous selection, and of discountenancing cross breeding, except for improvement in milking qualities

7 *The Experiments in Government and Wards' Estates* still show want of continuity and of definite aim His Honour hopes that in the course of the development of the Agricultural Department trained officers will be supplied to immediately supervise the various experiments in these estates, and that programmes will be framed for them by the more highly trained officers of the Agricultural Department An attempt should be made also to attract raiyats from Government and Wards' Estates to the Government farms, and to provide for them suitable instruction in methods of cultivation

8 The Lieutenant Governor desires to call the attention of District Officers to the circulars issued by the Entomologist to the Government of India, and trusts that his instructions will be complied with and every facility given to him or his assistants to investigate all cases of damage by insect pests

9 *Sericulture*—The Lieutenant Governor is glad to find that the Silk Committee continues its useful work in the districts of Birbhum, Malda Murshidabad and Rajshahi, and trusts that with larger funds at its disposal its sphere of usefulness may be widely increased In the district of Malda a sericultural class in connection with the Jote Arapur Middle English School has been opened

10 *Agricultural Education*—Ten students passed out of 14 at the final examination from Sibpur The Lieutenant Governor hopes to employ as many of these passed students and of the passed students of the previous years as possible in connection with the scheme for development of the Agricultural Department, and to include them in the proposed graded services Four passed students selected by the Director of Land Records have lately been sent to America for a post graduate course of two years' practical training, and one passed student was deputed to Pusa for a course of training in Entomology and another to Burma for training in cigar making

Agricultural classes have been attached to the Ravenshaw College and Collegiate School at Cuttack, the Chittagong Collegiate School, the Gaya Zilla School, the Dumraon High School, Howrah Zilla School and the Burdwan Municipal School His Honour trusts that every effort will be made to supplement the lectures by as much practical and manual training as possible He hopes that District Boards will, in time, provide scholarships for selected students from these classes to proceed to the proposed Bengal Provincial College of Agriculture

The Rajshahi Sericultural School during the year under report has enlarged its courses of study, and now teaches not only sericulture but also weaving and other technical subjects, such as Engineering, Carpentry, etc It is hoped that the District Board of Midnapore, in view of the falling off in the number of

scholars of the Sabong Seri Agricultural School, may be able to afford more assistance in the way of encouraging pupils by scholarships

11 *Publication of Agricultural information, etc* —The Lieutenant Governor trusts that, with the proposed increase of the expert staff of the Department, fuller publication of results in farms will be made both by distribution of pamphlets in the vernacular, by publication of an agricultural magazine, and by *communiques* to the press

12 *Agricultural Associations* —With a view to securing for Government the co operation of men interested in agriculture His Honour the Lieutenant Governor inaugurated in August last the Bengal Provincial Agricultural Association The members include some 33 leading zamindars and men of business, and meet at Writers' Buildings, Calcutta Steps are being taken to provide a large reference library for the members of the Association A Divisional Agricultural Association was also formed at Calcutta and a District Association at Rangpur during the year under report, and more associations are now being formed

13 *Indigo* —With the help of the Bihar Indigo Planter's Association experiments on the manufacture of indigo and on the cultivation of Java Natal and Java acclimatised seed have been made, and His Honour has recently given a prize for the invention of a cheap machine for treatment of this seed to ensure germination

14 The thanks of the Lieutenant-Governor are due to Mr Maddox for the zeal with which he has managed the Department during his tenure of the office of Director, to the Assistant Directors, Messrs D N and N G Mukerji, and to Mr Beatson Bell for an interesting report

15 In conclusion, His Honour desires to place on record his appreciation of the valuable advice and assistance rendered by the officers in the Imperial Agricultural Department, especially Messrs Sly, Mollison and Lefroy and Dr Butler

By order of the Lieutenant Governor of Bengal,

R W CARLYLE,

Offg Chief Secy to the Govt of Bengal

The mean pressure temperature, etc, are deduced from the traces of the Barograph and Thermograph and from eye observations

The maximum and minimum temperatures are obtained from self registering thermometers All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory They are exposed under a thatched shed open at the sides and are suspended four feet above the ground

The barometer readings are corrected to those of the standard, Newman's No. 86 formerly at the Surveyor General's Office

The hygrometric elements are obtained from Tables III IV and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain gauge is one foot above the ground Rainfall reported on any day is for 24 hours preceding 8 A M of that day

5 The preliminary application for a lease for a term of years either new or renewal, ma be of an informal nature but it must be in writing It may be presented at any time but if pre ented after the 31st March in the yea during which the lease is to commence an additional charge of 1 pice per *goont* of local measure equivalent to 6 annas 3 pies per man will be made for the year following that in which the lease has been applied for

The Subdivisional Canal Officer shall, at a date not less than three months and not more than six months before the expiry of a lease for a term of years send a notice in writing to the representative of the cultivators informing him of the fact Such notice shall request that early intimation may be sent if it is desired to renew the lease, and shall draw attention to the extra charge which will be incurred if the application is presented after the 31st March

The preliminary application may be presented either at the Subdivisional or Sectional Canal office The Subdivisional Canal Officer as soon as he has by personal enquiry or by an enquiry made by the Sectional Officer satisfied himself that the land in question constitutes a definite block and that it can be irrigated shall at once inform the Divisional Canal Officer giving such particulars as that officer may direct and shall ask his formal approval to the lease being proceeded with On receipt of such approval he shall forward the preliminary application to the zilladar in order that the detailed assessment of the block may be taken in hand A copy of the map alluded to in rule 4 shall be sent with the application and this constitutes the basis of the assessment

6 The zilladar on receipt of the application shall depute an amin to prepare the khasra or detailed assessment paper This shall be done on the ground with the aid of the revenue survey map and khasra Should the survey map and khasra not be available the amin shall make a sketch map and shall measure the areas with a chain or measuring rod

The amin shall write out daily in the form provided for the purpose abstracts for each cultivator of the entries in the khasra relating to lands in his occupation and shall deliver such abstracts to the representative for distribution

9 On the 1st December of each year or on any subsequent date the Divisional Canal Officer may decline to proceed with a lease for a term of years the application for which has not been fully signed by that date Provided that the form of application shall have been tendered to the cultivators through their representative for signature after the adjustment of any matters in dispute with regard to classification or area of land not less than 15 days before the 1st December or subsequent date Any provisional lease covering the same lands on which a supply of water may have been granted pending the completion of the lease for a term of years shall then become the substantive lease for the season and shall be put in force

14 Should it happen that the cultivators of the block proposed for lease are not unanimous, and that certain of them decline to sign the application, the zilladar shall report the matter to the Subdivisional Canal Officer This officer shall hold a local enquiry, recording the statements of the persons who decline to sign and recording his personal opinion on the reasons given He shall then send a report to the Divisional Canal Officer, who shall decide if the lease may be accepted excluding the fields in the occupation of the persons who decline to sign or whether the lease shall be declined The Divisional Canal Officer is authorized to grant a lease when not less than 90 per cent of the net irrigable area of the block has been signed for In particular cases should it be desirable to grant a lease even though an area lesser than per cent of the block has not been signed for this may be done on the written order of the Superintending Engineer The reason for granting the lease shall be fully recorded

15 Applicants for a lease for a term of years or for a season lease for the irrigation of autumn rice who may require water before the lease has been concluded can obtain a supply

on tendering an application for a provisional lease in the form given as Appendix No III to these rules This application must be signed in the presence of the Sectional Officer or of some other responsible officer nominated for the purpose by the Subdivisional Canal Officer

As soon as the Subdivisional Canal Officer receives the application duly signed he shall issue a permit in the form given as Appendix No VIII to these rules and shall at once supply water

47 Before any lease other than a special lease for *dalwa* rice provided for in rule 19 is entered into, the Deputy Collector or other officer in charge of the Revenue Division shall select as representative of the cultivators a person or persons who must have a direct interest in the land covered by the lease The selection shall be made with the consent of a majority of the cultivators having an interest in the lease and in consultation with the Subdivisional Canal Officer The person or persons so selected shall continue as representative for the village, unless he or they resign the office or unless the Deputy Collector or other officer in charge of the Revenue Division shall, for reasons recorded in writing remove him or them from the office

47A The person or persons so selected are required to give assistance in respect of the following matters —

(1) To assist the amin while preparing the assessment papers

(2) To assist in procuring and to attest the signatures to applications for leases

(3) To receive and to distribute to the persons concerned the individual notices of amounts charged

(4) To attend and to assist at enquiries into complaints

(5) To give information to the Subdivisional Officer or to the Sectional Officer of any insufficiency in the supply of water or of any misuse of the water

(6) To give information to the zilladar with respect to alterations in the occupancy of lands under a lease for a term of years

(7) To assist the tahsildar in collecting the rates

48 For such assistance the representative or representatives shall be entitled to the free irrigation of lands in his or in their own occupation which may lie within the lands covered by the lease subject to a total limit of 3 per cent of the area assessed

The Deputy Collector or other officer in charge of the Revenue Division may for reasons recorded in writing disallow in whole or part such free irrigation and may recover the rates which would otherwise have been charged if the assistance required by rule 47A has not been rendered to the best of the ability of the representative or representatives

SCHEDULE OF RATES

1 On a lease for a term of years for the irrigation of all crops on the land leased (supply of water given from 16th June to 31st March in each year)—

	Rs	A	P
For leases executed prior to 30th June 1902	1	8	0
Ditto from 1st July 1902	1	12	0

2 For such lands included in a lease for a term of year as may be classified by the Canal Officer under rule 3 as only deriving material benefit in seasons of short rainfal annas 8

These rates fall due on the 1st February of each year

Provided that in all cases in which the preliminary application for the lease has been presented on any date subsequent to the 31st of March of the year during which the lease is to commence an additional charge of one price per *goont* equivalent to 6 annas 3 pies per mán shall be made on all lands in the lease for the year subsequent to that from which the lease commences

APPENDIX III

APPLICATION FOR SUPPLY OF WATER PRIOR TO CONCLUSION OF {a lease for a term of years / a season lease for autumn (Sarad) rice}

We being cultivators of Mauza Pargana hereby certify that we have presented an application for the grant of {a lease for a term of years / a season lease for autumn (Sarad) rice} to cover all the irrigable land in a block situated in Mauza the area of which is approximately máns The boundaries of the block are shown in the attached sketch map, and are as specified below

Now in order that we may obtain a supply of water at once and before the {season lease for autumn (Sarad) rice / a lease for a term of years} can be concluded we whose signatures or marks are annexed below severally bind ourselves to pay the water rate on our holdings within the limits of the block as specified which may be determined by the Canal Officer to be irrigable Provided that those fields which, under the existing conditions of cultivation, do not in this season require a supply of water, shall be exempted though classed as irrigable We agree that under any circumstances the area to be charged for under this application shall be not less than máns as specified by each of us below In the event of {season lease for autumn (Sarad) rice / lease for a term of years} not being concluded through the default or the non consent of any of the cultivators of irrigable lands within the block, a rate of Rs 3 per mán on the area determined as irrigable and as liable to be charged for in the present season will be charged to us and will be payable by us on or before the 1st of February next Water to be supplied up to 30th November only

In token of our obligation in this agreement, we annex our signatures or marks below

MEDICAL DEPARTMENT

No 891—The following regulations for the grant of study leave to officers of the Indian Medical Service are published for information —

1 Extra furlough for the purpose of study may be granted to officers of the Indian Medical Service on the recommendation of the Director General Indian Medical Service

2 The period of such study leave will be calculated at the rate of one month to each year of service, up to a total of twelve months in all, during an officer's service

3 Study leave may be taken at any time, but will not be granted more than twice in the course of an officer's service

4 The minimum period of study which will render an officer eligible for study leave shall be two months

5 The minimum period of leave granted solely as study leave shall be six months Time spent on the journey to and from India by an officer whose study leave is not combined with any other kind of leave will reckon as study leave but the allowance specified in rule 9 will be granted during the period of study only

6 Study leave can be combined with any other kind of leave, provided the period occupied in study is not less than two months and, in the case of leave on medical certificate, provided that the Medical Board at the India Office certifies that the officer is fit for study In the case, however of officers in military employment study leave cannot be taken in continuation of the combined privilege leave and furlough admissible under the terms of India Army Order No 64 of 1904 if the total period would thereby exceed eight months but study leave may be so taken provided such leave is for not less than two months and the total period of combined privilege leave, furlough and study leave does not exceed eight months this limitation to eight months does not, however apply in the case of study leave combined with privilege leave alone The total period of absence from India will be strictly limited to two years

7 Except as provided for in rule 8 all applications for study leave shall be submitted, with the audit officer s certificate, to the Director General, Indian Medical Service, through the prescribed channel, and the course or cour es of study contemplated and any examination the candidate proposes to undergo shall be clearly specified therein

8 Officers on furlough who wish to have part of their furlough converted into study leave should address the Under Secretary of State India Office, and should furnish a statement showing how it is proposed to spend the study leave

9 During the course of study lodging allowance at the rate of 8s a day for a field officer, 6s for a captain, and 4s for a lieutenant will be granted It is to be understood that in order to qualify for the grant of study leave or for the receipt of lodging allowance a definite course of study at a recognised institution, which will occupy the time of the officer for five or six days a week, must be pursued

10 On completion of study the certificates of examinations passed or the certificates of special study, which must show the dates of commencement and termination of he course, with any remarks by the instructor, shall be forwarded to the Under Secretary of State, India Office who will arrange for the transmission of the documents to the Director General, Indian Medical Service Officers may also be called upon to report themselves in person to the President of the Medical Board, India Office, on the conclusion of their course of study

11 Study leave will count as service for promotion and pension, but not for furlough or any other leave It will not affect any leave which may already be due to an officer

RESOLUTION ON THE FINAL REPORT ON THE SURVEY AND SETTLEMENT OF THE KALIMPONG GOVERNMENT ESTATE IN THE DISTRICT OF DARJEELING

REVENUE DEPARTMENT—LAND REVENUE

Darjeeling the 11th October 1905

RESOLUTION—No 4154T—R

READ—

The Final Report on the settlement of the Kalimpong Government Estate in the district of Darjeeling, with letter No 3748 dated the 3rd February 1905 from the Director of Land Records, and a Resolution of the Board of Revenue No 1966A, dated the 15th March 1905, reviewing the Report

The Kalimpong Government Estate in the district of Darjeeling forms part of the territory annexed after the Bhutan war of 1865 At that time the inhabitants paid a capitation tax which was continued till the year 1881 82 when a portion of the estate, where cultivation was fairly well advanced, was surveyed and assessed to land revenue, the capitation tax being left untouched in the remaining portion where the lands were to a great extent unreclaimed The tract settled in 1881 82 was again settled for ten years in 1891 92, but the remaining area was still considered unfit for detailed survey and for the imposition of a land tax

2 The operations which form the subject of the present Report were commenced in October 1901, six months before the expiry of the term of the last settlement, and were completed in November 1903 They were

conducted under the provisions of the Bengal Survey Act of 1875, and of Act VIII (B C) of 1879, and embraced the whole estate, after Government had satisfied itself by careful inquiry that the time had come for the supersession of the capitation tax by a land settlement in the area previously left unsurveyed The total area surveyed was 114,216 acres, or 178 4 square miles, of which 53,349 acres were found to be held by raiyats the area under cultivation being 48,230 acres In some parts of the estate cultivation has reached its extreme limit, and the Lieutenant Governor accepts the Settlement Officer's recommendation that no new land should be granted for cultivation to raiyats in any of the blocks noted in the margin

3 His Honour notices with satisfaction that the Settlement Officer has demarcated and mapped suitable pieces of waste land as reserves for grazing, fodder and fuel, and that their reservation is appreciated by the villagers

4 Under the new settlement, which will last for ten years from 1st April 1903, the rental of the area previously surveyed has been raised from Rs 20,533 to Rs 27,393, or by Rs 6,860, in the area newly surveyed the assessed rents aggregate Rs 8,548 as against Rs 9,611, the revenue derived from the capitation tax, the reduction amounting to Rs 1,063 The assessment has however been distributed more fairly in accordance with the capacity of the cultivated lands The net enhancement for the entire estate has thus been Rs 5,797 Of the enhancement in the older area, Rs 1,386 are due to extension of cultivation, and Rs 5,474, or 26 6 per cent on the existing rental, to increase in the rent rates At previous settlements the rent rates were kept low with the object of attracting cultivators, and even now the average rent rate in the area in question, exclusive of bazar and cardamom lands which bear special rates, is only 11 annas 10 pies per acre, including the money value of two days' free labour given by each adult for the maintenance of village roads reckoned at about two annas The Lieutenant-Governor is satisfied that the new rents, which are reported by the Settlement Officer to have, on the whole, been accepted by the raiyats with alacrity, are very moderate It is also gratifying to His Honour that in the area not previously surveyed the raiyats, instead of demurring to the discontinuance of the capitation tax, showed considerable appreciation of the leases which they received for the first time

5 The net total cost of the operations amounts to about Rs 66,000, or 9 annas 3 pies an acre This includes the Settlement Officer's travelling allowance, but excludes his pay, as he had certain other duties to perform in addition to the settlement work The cost of the survey work was high, but this is satisfactorily explained by the fact that the lands are scattered and situated on hill sides, and by the other facts stated in paragraph 246 of the Report The Lieutenant Governor notices with regret that the work of attestation was delayed by the facts stated in paragraph 204 of the Report, viz , that many mistakes were found in the rent rolls kept in the office of the Manager of the Estate, and that many of the *pattas* which had been filed by raiyats in connection with cases during preceding years and deeds of compromise and other important documents had been lost or were not forthcoming from that office With regard to the loss of the *pattas* it is explained that some of them were destroyed in the fire which took place in the Deputy Commissioner's office in 1897 His Honour trusts that the Board of Revenue will take steps to maintain the records and rent rolls of the new settlement in a more efficient condition

6 The Settlement Officer has made various suggestions in the paragraphs of his Report noted in the margin They will be dealt with by the proper authority in due course The special attention of the Board is invited to the remarks in paragraph 76 of the Report relating to transfers Under the rules, approved in Government order No 2027T —R ,

Paragraphs 15 16 17 19, 20 21 31 53 69 76 92 95 126 and 233

dated the 16th September 1904, for the maintenance of the settlement records in the estate, the entries in the *khasra* will be checked on the spot once a year The Lieutenant-Governor thinks that, as suggested by the Settlement Officer, both the transferee and the *mandal* concerned should in each case of unreported transfer disclosed by the annual check be punished in accordance with the terms of the *patta* and the *sanad*

7 With the preceding remarks, the Lieutenant Governor confirms the settlement made for a period of ten years from the date on which the term of the preceding settlement expired He desires his acknowledgements to be conveyed to Mr C A Bell, ICS, for the able and sympathetic manner in which he has accomplished the task His Honour's cordial thanks are also due to the Revd J A Graham, D D, President of the Kalimpong Colonial Homes, for the valuable services he has rendered to the tenants of the estate

ORDER —Ordered that this Resolution be published in the *Calcutta Gazette*

The mean pressure, temperature, etc are deduced from the traces of the Barograph and Thermograph and from eye observations

The maximum and minimum temperatures are obtained from self registering thermometers All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory They are exposed under a thatched shed open at the sides and are suspended four feet above the ground

The barometer readings are corrected to those of the standard, Newman's No 86, formerly at the Surveyor General's Office

The hygrometric elements are obtained from Tables III IV and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain gauge is one foot above the ground Rainfall reported on any day is for 24 hours preceding 8 A M of that day

The total fall from 1st January to 21st October 1905	67 03
The average fall of the corresponding period for 24 years, Surveyor General's Office	62 07

The mean pressure temperature, etc, are deduced from the traces of the Barograph and Thermograph and from eye observations

The maximum and minimum temperatures are obtained from self registering thermometers All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory They are exposed under a thatched shed open at the sides and are suspended four feet above the ground

The barometer readings are corrected to those of the standard, Newman's No 86, formerly at the Surveyor General's Office

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. Rainfall reported on any day is for 24 hours preceding 8 A M of that day

o, overcast, d, drizzling rain, p, passing temporary showers, ≏, dew

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE MONTH OF SEPTEMBER 1905

SEPTEMBER 1905 was fortunate in a very general, steady, and abundant monsoon, considerably more so than is usual and without a single break of importance In every division of the Province the month's rainfall has been in considerable excess, and it more than made up for all previous defects of the monsoon period, Orissa alone being in defect for the whole season The usual two cyclonic storms developed during the month in the northern part of the Bay and passed inland in a north westerly direction Three depressions also formed over the south of the Province, two of which developed into small cyclonic storms as they moved northwards

The falling barometer of the last few days of August was checked by a slow rise over the whole north western land area on the 1st of September accompanied and followed by a slight weakening of the monsoon current and a failing off in the rainfall This uniform pressure over the Province slowly developed into a shallow depression moving slightly westwards on the 3rd, 4th and 5th its south easterly end finally developing into a cyclonic storm of small intensity just off the Orissa coast on the 6th and 7th, crossing inland between False Point and Balasore on the morning of the 8th, and away westwards over the Central Provinces on the 9th Ever since the 3rd this depression had caused an indraught of moist winds in its wake which gave a copious precipitation all over Bengal which was only temporarily stopped on the 10th and 11th before another depression with its accompanying abundant rainfall was again slowly developed over Chota Nagpur on the 12th and 13th and deepening as it moved northwards over Bihar on the 14th and 15th on both of which days and that following the rainfall all over Bengal and Bihar was phenomenally heavy, and only began to fall off as the storm broke up against the Nepaul Hills On the 18th a shallow depression appeared over Upper Burma which attracted as it were towards the residual trough of low pressure in the north west gradually expanded and moved outwards over the northern part of the Bay, where it travelled slowly westward developing all the time until it struck the coast its centre crossing close to Calingapatam at 4 A M on the 24th Its maximum barometric depth was about one third of an inch below normal It continued to move in a westerly direction for a few hours and its path then gradually curved round into a north westerly course and the depression was traced across the Central Provinces until the 28th when it disappeared over Nagpur The full tale of the damage done by this storm has not yet been collected but it included the wiping out of whole groves of trees which had certainly stood for over 50 years along the coast and the breaking down of the telegraph poles along 70 miles of the East Coast Railway The rain which accompanied it was locally estimated at about 7 inches all round the path of its centre (8 05 inches were measured in 27 hours at Calingapatam) and was probably much heavier on the slopes of the Eastern Ghauts The resulting floods inundated several villages and caused two very serious breaches in the railway Simultaneously rain was widely diffused over the Province on the 23rd and was gradually drawn away towards Bihar and Chota Nagpur on the 24th and diminished to scattered showers in Bengal on the 25th and 26th During the 27th a depression of slight extent moving westward from the interior of Burma and the south of East Bengal developed over the Gangetic delta, and passing over Calcutta on the morning of the 28th proceeded in a north westerly direction during that day and in a northerly direction across Bihar on the 29th and broke up in the Himalayas before the 1st of October The last three days of September were thus characterised by a very heavy precipitation all over Bihar Bengal and Orissa, and left the Province in full possession of a vigorous monsoon

Summary of pressure —Pressure was about normal across the south eastern quarter of the Bay and well below normal over the whole Province, giving thus a steeper average pressure gradient than usual as the cause underlying the strong monsoon winds

Summary of temperature —The abundant rain and absence of the usual long "breaks" in the monsoon naturally reduced the average temperature of the month, though only a trifle below normal This deficiency did not extend up to the Himālayas, along the base of which in fact the mean temperature was slightly higher than usual Darjeeling of course showed the lowest average temperature both for days and nights its coldest record for the month being 51° 6 Saugor Island had the highest mean temperature 84° 2 Arrah recorded the highest maximum 96° 9 the lowest trustworthy minimum in the plains being 70° 5 at Dehree

Summary of rainfall —Rain was continuous and fairly heavy over the whole Province Every division shows an excess on the total for the month from as much as 80 per cent in East Bengal down to only 1 per cent in North Bengal (two of whose districts which could best afford it Cooch Behar and Jalpaiguri, alone in the whole Province showing a large proportionate defect)

The number of rainy days was considerably more than usual

The following table gives a condensed summary of the rainfall statistics of the present year up to date for each Meteorological Division, the first nine columns giving the actual average falls in each Division for each month expressed as a percentage of the normal, while the tenth column gives the actual rainfall of the first nine months as a percentage of the normal rainfall for that period —

ESTABLISHMENTS

Simla, the 26th October 1905

No 1159 —The services of Mr R Nathan, C I E., of the Indian Civil Service, Private Secretary to His Excellency the Viceroy and Governor General, are replaced at the disposal of the Government of Bengal, with effect from the 18th November 1905

EXAMINATIONS

The 27th October 1905

RULES FOR THE EXAMINATIONS OF JUNIOR CIVILIANS IN ORIENTAL LANGUAGES

No 708 —The following amended rules* for the encouragement of the study of Oriental languages among the junior members of the Indian Civil Service have been substituted for those published in the Home Department notification No 1, dated the 2nd January 1880 They are published for general information, together with a detailed list of authorized text books and with relevant extracts from the Civil Service Regulations

[The rules will come into force from the 1st January 1906, except as regards the examinations in Persian and Arabic In respect of Persian and Arabic they will come into effect from the 1st April and 1st July 1906 respectively]

* These rules do not in any way affect the departmental examinations in law language etc., which junior civilians have to pass under the orders of Local Governments.

I —The standards of examination and the donations to be given to successful candidates will be as follows

		Rs	
Higher Standard	Persian	500	With certificate from the presiding examiners
	Arabic	800	
	Sanskrit	800	
High Proficiency	Urdu	1 000	With certificate from the presiding examiners
	Hindi	1 000	
	Bengali	1,000	
	Uriya	1 000	
	Persian	2 000	
	Arabic	2 000	
	Sanskrit	2,000	
Degree of Honour	Urdu	2 000	With diploma from the Government of India
	Hindi	2 000	
	Bengali	2 000	
	Persian	4 000	
	Arabic	5 000	
	Sanskrit	5,000	

II —Subject to the condition that an officer serving in the Upper Provinces will not be eligible for examination in Bengali or Uriya, until he has obtained a certificate in one of the other languages, candidates may present themselves for examination in any of the languages enumerated in rule I A civil servant attached to the Upper Provinces, who may have obtained a certificate of high proficiency in Urdu, Hindi or Persian under the rules of the 2nd October 1861, or the rules of the 24th March 1870, or the rules of 2nd January 1880, will be deemed to have satisfied the foregoing condition

III —No civil servant will be permitted to present himself for examination by two standards of the same language simultaneously but he may have the option of competing for the higher examinations in any language without first undergoing any inferior test

IV —No civil servant will ordinarily be permitted to appear more than twice as a candidate at any examination, but if a special recommendation be made by the examiners, a candidate will be allowed to appear a third time

V —No civil servant will be permitted to present himself for the higher standard, high proficiency, or honour examinations after the expiration of five ten and fifteen years, respectively counted from the date of his first arrival in India No exception to this rule will be made on account of leave or any other cause

Civil servants may be permitted to attend the examinations after the expiration of the periods specified in this rule, but no reward will be granted to them if they pass and their leave must be limited to such time as may be necessary to enable them to attend the examination, and no extra expense must under any circumstances be caused to the State In such cases it will be within the competence of Local Governments to refuse applications for permission to attend any particular examination when compliance with such applications would involve inconvenience to the public service

VI —Civil servants who may have passed examinations under the rules of 1861 (cancelled in section VII of the rules of 1870) or of 1870 (cancelled in section I of the rules of 1880) or of 1880 (cancelled in the preamble to the present rules) will not be eligible to compete at corresponding examinations in the same language or languages under the rules now passed

VII —Civil servants who are natives of India are not eligible for rewards in passing in the vernacular of the district in which they were born or educated The Local Government shall determine in each case what languages come within this definition

VIII —Examinations will be held quarterly on the first Monday in January, April July, and October of each year at Calcutta

Civil servants desirous of attending examinations must apply for leave to do so to the Local Government at least three months before the date of examination and a copy of such permission should be forwarded to the Secretary Board of Examiners, Calcutta in the case of examinations held at the Presidency, but civil servants attached immediately to the Government of India must apply for leave to the Home Department through the department of the Government of India under which they are serving and such application must be accompanied by a certificate from the Accountant General of the province to which the applicant belongs that he has not exceeded the time of residence mentioned in section V

EXTRACTS FROM THE CIVIL SERVICE REGULATIONS

Examination Leave of Absence

The following extracts from the Civil Service Regulations are given for the purpose of easy reference —

279 In cases not specially provided for in this section permission to appear at an optional examination prescribed by Government in any of the Oriental languages carries with it the grant of joining time (excluding the time allowed for preparation) to and from the place of examination, besides leave for the day or days of examination

280 (*a*) A candidate for a reward for the higher standard in Arabic or high proficiency in Arabic or Persian, may be allowed either (i) leave for one month before the examination and, if he passes, for another month after it or (ii) if he undertakes to spend it in study under professional tuition at a presidency town, the whole period of two months before the examination

(*b*) An officer who is a candidate for the degree of honour in Arabic or Persian may be allowed, instead of the leave for two months provided in clause (*a*), leave for four months to Persia for Persian, and for six months to Arabia, Mesopotamia, Egypt or Syria for Arabic In the case of officers of the Political Department of the Government of India, this leave may be granted even when they are candidates only for the higher standard or high proficiency test in either of the two languages

(*c*) Privilege leave may not be granted in continuation of the month's leave after examination admissible under clause (*a*), but otherwise leave under this article may be combined with privilege leave, provided that privilege leave prefixed to leave under clause (*b*) must be spent in, or in travelling to, one of the countries mentioned in the clause

(*d*) An officer on leave under this article has a lien on his appointment substantive or officiating, and is entitled to leave allowances, as if he were on privilege leave, for an aggregate maximum period of twelve months

* * * * * * *

NOTE.—Leave granted under article 280 covers the whole period of absence from regular duty including the day or days of examination and the time spent in proceeding to and from the place of examination The leave cannot be taken in instalments.]

282 Except as provided in article 280, no kind of leave, except furlough on medical certificate, may be granted in continuation of examinatson leave

PRELIMINARY FORECAST OF THE BHADOI CROPS OF BENGAL 1905

THE following note is published for general information

R W CARLYLE,
Offg Chief Secy to the Govt of Bengal
The 4th November 1905

DEPARTMENT OF LAND RECORDS AND AGRICULTURE, BENGAL

Preliminary forecast of the Bhadoi crops of Bengal, 1905

Explanatory—By far the most important *bhadoi* food crop of the Province is Autumn paddy It covers nearly 60 per cent of the total area under *bhadoi* crops In Bihar and Chota Nagpur the most important *bhadoi* crop is maize, a good deal of *marua* and *jowar* being also grown, but all these are practically unknown in Central and East Bengal or in Orissa The most important non food crop is jute which again is practically unknown in Bihar and Chota Nagpur but jute is not dealt with in this forecast, as a separate forecast is devoted to it

Character of the season—Both in March and April the rainfall was heavy and general all over the Province In May, too, there was good rain the fall being generally equal to the normal But June was a very dry month, the fall being, excepting in North Bengal, very scanty indeed July, however, brought good rain all over the Province In August, there was deficiency in Orissa and Chota Nagpur but the fall was very heavy and continuous in North and East Bengal and also in Bihar In September, up to now there has again been very heavy rain in this tract But in Orissa and parts of Chota Nagpur the fall has continued only moderate if not light Damage by heavy rain and floods has been reported from parts of the 24 Parganas, Howrah, Hooghly, Bogra, Backergunge, Faridpur, Mymensingh, Champaran and Darbhanga, while scanty rainfall has affected the outturn in Orissa and Chota Nagpur The season on the whole has been very unfavourable Maize and *marua* have suffered most

Area sown—The Collectors of Hooghly, Howrah, Mymensingh, Jalpaiguri, Rangpur, Bhagalpur and Balasore have revised the normal areas under *bhadoi* crops in their respective districts The normal area under these crops for the Province (excluding the area under jute, cotton and *bhadoi til* for which separate forecasts are issued) now stands as 13,986,500 against 13,379,400 acres shown in the final

forecast of last year The actual area sown this year (*bhadoi* food and non food crops, excluding jute, etc) is 12,189,200 against 12,151,200 acres shown last year, but which according to revised returns should stand as 12,458,100 acres

The area under *bhadoi* food crops this year is 11,553,200 acres against 11,819,500 acres of last year

Outturn—Only three districts, *e.g*, Jalpaiguri Purnea and Balasore, return a normal crop, while Darjeeling alone shows above the normal Rajshahi and Malda report respectively 95 and 93 per cent Fourteen districts report between 80 to 89 per cent, sixteen between 70 to 79, four between 60 to 69, while six districts, *e g*, Backergange, Monghyr, Muzaffarpur Saran, Howrah and Darbhanga, show 50 per cent and under

The total outturn of the *bhadoi* crops as estimated by the District Officers comes to only 74 per cent

(*a*) That a separate building and plant suitable for the purpose are set apart solely for the grinding, conveying, screening, storage etc of animal manure after sterilisation

(*b*) That the buildings appliances, and surroundings generally are satisfactory

(3) The license shall remain in force until cancelled by the Inspector and he may cancel the same at any time if satisfied that the requirements of the last preceding clause of these regulations are not properly complied with or that the owner or person in charge of the works has in any way failed to faithfully comply with these regulations in any respect

(4) Before commencing or resuming the manufacture or preparation of animal manure for export to New Zealand seven clear days' notice must be given to the Inspector by the licensee

(5) No consignment of animal manure shall be landed in New Zealand unless the said consignment is accompanied by a declaration in the form numbered 3 in the Schedule hereto, to the following effect —

(*a*) That any bones contained in the said consignment have been either (i) subjected to a temperature of at least 281 degrees Fahrenheit (equal to an indicated steam pressure of fifty pounds per square inch) for not less than four hours or (ii) crushed so that no part thereof exceeds two inches in length and afterwards subjected to a temperature of at least 267 degrees Fahrenheit (equal to an indicated steam pressure of forty pounds per square inch) for not less than two hours

(*b*) That all animal ingredients other than bones contained in the said consignment have been subjected to a temperature of at least 267 degrees Fahrenheit (equal to an indicated steam pressure of forty pounds per square inch) for not less than two hours

(*c*) That the licensed building and machinery used in the manufacture and treatment of the said consignment have not, since the issue of the license been used in the manufacture or treatment of any animal manure that has not been sterilised as afore aid

(*d*) That the said consignment has not been in contact after sterilisation with any animal manure that has not been sterilised a aforesaid

(*e*) That during its manufacture or treatment the said consignment and the works were at all times open to inspection by the Inspector, or any officer authorised in that behalf by the Inspector

(*f*) That the bags in which the said consignment is contained have never previously been used for any purpose whatsoever

(*g*) That each bag is branded with the name of the works where it was filled and also with a full description of its contents

(*h*) That all carts trucks barges or other conveyances will be properly cleansed to the satisfaction of the Inspector before the said consignment is loaded therein

(*i*) That no animal manure that has not been sterilised as aforesaid will be conveyed to the port of shipment or to the ship on the same cart, truck, barge or other conveyance with the said consignment

(6) The said declaration shall be signed by the owner or person in charge of the works where the said consignment was manufactured or prepared, and shall be delivered to the Inspector or some officer authorised in that behalf by the Inspector, at least twenty four hours before the said consignment leaves the works The Inspector or his officer upon being satisfied that the foregoing requirements of these regulations have been complied with, and that the hereinafter mentioned fee has been paid shall countersign the declaration and forthwith return it to the owner or person in charge of the works to be by him forwarded to New Zealand with the consignment to which it relates

(7) There shall be payable for each ton or part of a ton (by weight) contained in the consignment to which the countersigned declaration relates a fee of two shillings and six pence if in Australia or of two rupees if in India

(8) The countersigned declaration shall be delivered to an Inspector of Stock at the New Zealand port of importation before the consignment is landed

(9) No consignment of animal manure shall be landed in New Zealand unless the said consignment is accompanied by a declaration in the form numbered 4 in the Schedule hereto with respect to each ship by which it was conveyed during any part of the voyage

(10) The last mentioned declaration shall in the case of each ship be signed by the master of the ship and shall be delivered to an Inspector of Stock at the New Zealand port of importation before the consignment is landed

4 If any person introduces, or attempts to introduce, into New Zealand any animal manure contrary to these regulations, then and in such case and irrespective of any other penalty to which he is thereby liable any Inspector of Stock shall have and may exercise all such powers of seizure and disposal as are contained in clause 53 of the general regulations hereinafter referred to

5 Any person sending or causing to be sent any order for any animal manure to be imported into New Zealand from India or Australia shall at the same time forward by post a notice in the form numbered 5 in the Schedule hereto to the Secretary for Agriculture at Wellington and also cause the Inspector in India or Australia, as the case may be, to be immediately notified of the purport of such order

6 Any person intending to introduce animal manure into New Zealand shall give the Inspector of Stock at the port of landing not less than forty eight hours notice of his intention The notice shall be in the form numbered 6 in the Schedule hereto or to that effect

7 The Inspector of Stock at the port of landing may submit samples of the manure to any analyst duly appointed under "The Adulteration Prevention Act 1880 or The Fertilisers Act 1904 for report and may detain the manure for a reasonable time pending inquiry or the report of the analyst If in the opinion of the analyst the manure has not been treated as prescribed by these regulations it shall be treated dealt with, or disposed of as the Minister directs

8 Any person importing animal manure into New Zealand may be required by any Inspector of Stock to thoroughly disinfect any conveyance or vehicle in which such animal manure has been conveyed after leaving the ship

9 Any person committing in New Zealand a breach of these regulations shall, on conviction, be liable to a penalty of not less than five pounds nor more than five hundred pounds

10 So much of the general regulations dated the thirtieth day of December one thousand eight hundred and ninety three made under The Stock Act 1893 and published in the *New Zealand Gazette* of the fourth day of January, one thousand eight hundred and ninety four, as is inconsistent with these regulations is hereby revoked or modified in so far as such inconsistency exists but not further or otherwise

11 The forms prescribed by these regulations can be obtained free of charge from the Secretary for Agriculture at Wellington the Inspector of Stock at any New Zealand port or any Inspector of Manure sterilising
